E. N. BLANDY,

Chief Secy. to the Govt. of Bengal (offg.).

NOTIFICATIONS.

No. 10401A.—2nd September 1936.—It is notified for general information that two vacancies in the Bengal Police Service will be filled from the examination to be held in February 1937 for recruitment of officers to the Bengal Civil Service (Executive), the Bengal Junior Civil Service, etc., the instructions regarding which were published in Government notification No. 9474A., dated the 21st August 1936.

No. 10349A.—2nd September 1936.—In exercise of the powers conferred by rules 44 and 54 of the Civil Services (Classification, Control and Appeal) Rules, the following rules are made by the Local Government:—

PART I.

General.

1. These rules shall be called the Bengal Subordinate Services (Discipline and Appeal) Rules, 1936.

2. They shall apply to all Subordinate Services and posts under the Government of Bengal other than services and posts manned by—

(1) persons employed occasionally or subject to discharge at less than one month's notice,

(2) persons for whose appointment and conditions of service special provision is made by or under any law for the time being in force, or,

(3) persons who have been excluded from the operation of the Civil Services (Classification, Control and Appeal) Rules by declaration of the Local Government under rule 4 of those Rules.

3. For the purposes of these rules "Government" means the Local Government as defined in section 134(*4*) of the Government of India Act, 1919.

4. All first appointments to the services or posts included in the Schedule to these rules shall be made by the authority mentioned in column 2 of that Schedule.

5. All first appointments to the Subordinate Services not included in the Schedule to these rules shall be made by the head of the office in administrative charge of the service or post.

NOTE.—If any doubt arises as to who is the head of the office for the purposes of this rule, the matter shall be referred to the Local Government, whose decision shall be final.

6. Nothing in these rules or in any rule made thereunder shall operate to deprive any person of any right or privilege to which he is entitled—

(*a*) by or under any law, or

(*b*) by the terms of any contract or agreement subsisting between such person and Government on the date these rules came into force.

PART II.

Discipline.

7. The following penalties may, for good and sufficient reason and as hereinafter provided, be imposed upon members of Subordinate Services, namely:—

(*i*) Censure.

(*ii*) Withholding of increments or promotion, including stoppage at an efficiency bar.

(*iii*) Reduction to a lower post or time-scale, or to a lower stage in a time-scale.

(*iv*) Recovery from pay of the whole or part of any pecuniary loss caused to Government by negligence or breach of orders.

(*v*) Suspension.

(*vi*) Removal from the civil service of the Crown, which does not disqualify from future employment.

(*vii*) Dismissal from the civil service of the Crown, which ordinarily disqualifies from future employment.

Explanation.—The discharge—

(*a*) of a person appointed on probation, during the period of probation,

(*b*) of a person appointed otherwise than under contract to hold a temporary appointment, on the expiration of the period of the appointment,

(*c*) of a person engaged under contract, in accordance with the terms of his contract,

does not amount to removal or dismissal within the meaning of this rule.

8. Subject to the condition that no officer may be removed or dismissed by an authority subordinate to that by which he was appointed, the authorities specified in column 3 of the Schedule to these rules may impose the penalties specified in column 4 of that Schedule upon members of the services included in that Schedule.

9. Subject to the condition that no officer may be removed or dismissed by an authority subordinate to that by which he was appointed, the authority having power to make first appointments to the service or post in question may impose any penalty specified in rule 7 upon members of Subordinate Services not included in the Schedule to these rules.

10. (*i*) Without prejudice to the provisions of rule 55 of the Civil Services (Classification, Control and Appeal) Rules, no order imposing a penalty specified in rule 7, other than an order of censure or suspension pending proceedings or an order based on facts which have led to his conviction in a criminal court, shall be passed against a member of a subordinate service unless the officer concerned has been given an adequate opportunity of making any representation that he may desire to make and such representation, if any, has been taken into consideration before the order is passed:

Provided that the requirements of this sub-rule may, for sufficient reasons to be recorded in writing, be waived where there is difficulty in observing them and they can be waived without injustice to the officer concerned.

(*ii*) The authority imposing any penalty under these rules shall maintain or cause to be maintained a record showing—

(*a*) the allegations upon which he proceeded against the officer punished,

(*b*) the officer's representation, if any, and the evidence taken, if any,

(*c*) a recital of the officer's previous character as recorded in his service book or office records,

(*d*) the finding and the grounds thereof.

(*iii*) In the case of an officer who has been lent to the punishing authority, the latter shall consult the lending authority before exercising any power of punishment other than the power to suspend.

(*iv*) When the orders for punishments are passed by an authority other than the person conducting the enquiry into the conduct of the Government officer concerned, it will be sufficient if the authority passing orders of punishment definitely records his agreement or disagreement with the person by whom the enquiry was conducted.

PART III.

Appeals.

11. Every member of a Subordinate Service shall be entitled to appeal, as hereinafter provided, from an order—other than an order of the Local Government.—

(*a*) imposing upon him any of the penalties specified in rule 7; or

(*b*) discharging him in accordance with the terms of his contract

if he has been engaged on a contract for a fixed or for an indefinite period and has rendered under either form of contract continuous service for a period exceeding five years at the time when his services are terminated.

12. Members of services included in the Schedule to these rules may appeal from orders passed in exercise of powers conferred by rule 8 to the authorities specified in column 5 of that Schedule.

NOTE.—If, owing to the conditions mentioned in rule 8, the authority ordering the removal or dismissal of an officer is higher than the authority specified in column 3 of the Schedule, then the officer shall be entitled to appeal to the authority immediately superior to the authority imposing the penalty. If any doubt arises as to who that authority is, the matter shall be referred to the Local Government whose decision shall be final.

13. Members of Subordinate Services not included in the Schedule to these rules may appeal from orders passed in exercise of powers conferred by rule 9 to the authority immediately superior to the authority imposing the penalty.

NOTE.—If any doubt arises as to who is the immediately superior authority for the purposes of this rule, the matter shall be referred to the Local Government whose decision shall be final.

14. A member of a Subordinate Service may appeal from an order of discharge of the kind referred to in rule 11(*b*) to the authority to whom he would have been entitled to appeal under these rules had the order been an order of dismissal.

15. The appellate authority shall consider—

(*a*) whether the facts on which the order was based have been established;

(*b*) whether the facts established afford sufficient ground for taking action; and

(*c*) whether the penalty is excessive, adequate or inadequate;

and after such consideration shall pass such order as it thinks proper.

16. Every person preferring an appeal shall do so separately and in his own name.

17. Every appeal preferred under these rules shall contain all material statements and arguments relied on by the appellant, shall contain no disrespectful or improper language, and shall be complete in itself. Every such appeal shall be addressed to the authority to whom the appeal is preferred, through the authority from whose order the appeal is preferred, and shall be submitted through the usual official channel.

18. An appeal may be withheld by an authority not lower than the authority from whose order it is preferred, if

(1) it is an appeal in a case in which under these rules no appeal lies, or

(2) it does not comply with the provisions of rule 17, or

(3) it is not preferred within six months after the date on which the appellant was informed of the order appealed against, and no reasonable cause is shown for the delay, or

(4) it is a repetition of a previous appeal and is made to the same appellate authority by which such appeal has been decided, and no new facts or circumstances are adduced which afford grounds for a reconsideration of the case:

Provided that in every case in which an appeal is withheld the appellant shall be informed of the fact and the reasons for it:

Provided also that an appeal withheld on account only of failure to comply with the provisions of rule 17 may be resubmitted at any time within one month of the date on which the appellant has been informed of the withholding of the appeal, and, if resubmitted in a form which complies with those provisions, shall not be withheld.

19. No appeal shall lie against the withholding of an appeal by a competent authority.

20. A list of appeals withheld under rule 18, with the reasons for withholding them, shall be forwarded quarterly by the withholding authority to the appellate authority.

21. An appellate authority may call for the records of any appeal withheld by an authority subordinate to it which under these rules may be made to it and may pass such orders thereon as it considers fit

22. Nothing in these rules shall preclude the Local Government from revising, whether on its own motion or otherwise, any order passed by an authority subordinate to it in exercise of powers conferred on such authority by these rules.

23. Nothing in these rules shall operate to deprive any member of a subordinate service of any right of appeal which he would have had if these rules had not been made, in respect of any order made before these rules came into force. An appeal in respect of such an order pending on, or preferred after, the second September, 1936 shall be deemed to be an appeal under these rules, and rule 15 shall apply as if the appeal were from an order appealable under these rules.

24. Except under very special circumstances no pleader or agent should be allowed to appear either on behalf of Government or the accused either before the officer who conducts the enquiry or any officer to whom appeal may be made.

Reforms.

NOTIFICATIONS.

No. 5266 A. R. D.—8th September 1936.—The following communique relating to the publication of the draft electoral rolls for the Water Transport Trade Union constituency and the Railway Trade Union constituency of the Bengal Legislative Assembly, and the method of submitting claims and objections thereto, is published for general information and guidance.

R. N. GILCHRIST,

Reforms Commr. and Joint Secy. (ex-officio) to the Govt. of Bengal.

COMMUNIQUE.

The preparation of the electoral rolls for the Water Transport Trade Union constituency and the Railway Trade Union constituency of the Bengal Legislative Assembly has now been completed, and the rolls will be published in draft on the 15th September 1936. Although the rolls have been prepared from the materials furnished by the constituent trade unions and every effort has been made to make the rolls as complete and as accurate as possible, persons who consider themselves qualified to be included in the electoral roll of the Railway Trade Union constituency and the constituent trade unions forming the Water Transport Trade Union constituency are advised to inspect the rolls when published, to see if their names or the names of their nominees, as the case may be, are included. If such names are not entered, or if there are any inaccuracies in the entries, the persons or the trade unions in question are advised to prefer claims for inclusion of names in the rolls, or submit objections to entries which may be inaccurate or wrong.

2. For purposes of representation in the Bengal Legislative Assembly the following unions have been certified to be constituent trade unions:—

I. Registered trade unions of railway workers.

(1) Kanchrapara Railway Workmen's Union.

(2) E. B. Railway Indian Employees' Association.

(3) Bengal Nagpur Railway Indian Labour Union.

(4) E. I. Railway Employees' Association.

(5) Railway Press Workers' Union.

II. Registered trade unions of water transport workers.

(1) Indian Seamen's Union.

(2) Bengal Mariners' Union, with which the I. M. and W. U. is amalgamated.

Members and officials of the constituent trade unions of railway workers named above and nominees of the constituent trade unions of water transport workers named above who possess the respective qualifications prescribed in paragraphs 19 and 20 of Part IV of the Government of India (Provincial Legislative Assemblies) Order, 1936, are entitled to registration of names in the rolls.

3. The rolls will be published in draft at the office of the Registrar of Trade Unions, Bengal, the Registering Authority and the Returning Officer of the constituencies, and also at the registered office of each constituent trade union.

4. Claims and objections must be preferred in prescribed forms and in the manner provided in Part III of the Bengal Legislative Assembly Electoral (Preparation, Revision and Publication of Electoral Rolls) Rules, 1936. All such claims and objections must be addressed and presented personally or by agent authorised in writing or sent by post to the Revising Authorities, whose names are given in notices with which the rolls are published. In the case of the Water Transport Trade Union constituency a claim may be preferred only by the Secretary or by an agent authorised in writing by such Secretary, of the constituent trade union concerned and by no other person.

5. The last date for submission of claims and objections is the 29th September 1936. Applications received after this date will not be entertained.

6. The forms on which claims and objections may be made can be obtained free of charge from the office of the Registrar of Trade Unions, Bengal, the office of the constituent trade unions, and also from the Reforms Office, Writers' Buildings, Calcutta. If any claims or objections are not submitted in prescribed forms they are liable to be rejected. There is, however, no objection to applications being made on typed forms if printed forms are not available.

7. All necessary particulars regarding the qualifications of electors, the method of publication and revision of rolls and the prescribed forms for claims and objections have been embodied in the Bengal Electoral Orders and Rules, copies of which can be purchased at four annas a copy from the Bengal Government Press (Publication Branch), 38, Gopalnagar Road, Alipore, or the Sales Office, Writers' Buildings, Calcutta.

No. 5328 A. R. D.—9th September 1936.—In exercise of the power conferred by paragraph 4 of Part I of the Government of India (Provincial Legislative Assemblies) Order, 1936, read with paragraph 26 of Part I of that Order, and of all powers enabling him in that behalf, the Governor of Bengal in Council is pleased to direct that for the purpose of constituting the Legislative Assembly of the Province the electoral rolls for the Calcutta and the Dacca University constituencies shall be made up by reference to the 1st of October 1936.

R. N. GILCHRIST,

Reforms Commr. and Joint Secy. (ex-officio) to the Govt. of Bengal.

Public Health.

NOTIFICATIONS.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

No. 3598P.H.—12th September 1936.—The following draft of rules which, in exercise of the powers conferred by clauses (*n*) and (*nl*) of section 138 of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), the Government of Bengal (Ministry of Local Self-Government) propose to make are published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 15th November 1936, and any objection or suggestion received by the undersigned through the District Magistrates before that date, will be duly considered:—

Draft rules for the control of malaria and other mosquito-borne diseases.

1. In an area in which the Local Government has ordered that anti-mosquito operations shall be taken up by the district board it shall be lawful for the district board to stock larvicidal fish in any tank, well, reservoir or other water collection which, in the opinion of the district board appears to be injurious to health, whenever such a step is decided upon by the district board as an anti-mosquito measure.

2. Whenever the admission of silt-laden flood water into tanks, ponds and other water collections is deemed necessary as an anti-mosquito measure in an area in which the district board has been ordered by the Local Government to take up anti-mosquito operation, the district board shall provide for waterways for the introduction of flood water into the interior of such area, if this has not already been arranged for by any other authority, and the owners of tanks, ponds or water collections shall admit the flood water into the said tanks, ponds and water collections.

3. (*1*) Whenever anti-mosquito operations have been ordered by the Local Government to be taken up by a district board in an area, it shall be lawful for the district board to treat all water collections periodically with larvicides.

When such anti-mosquito operation has been taken up by the district board, the owners of tanks, wells and other water collections shall neither offer any obstruction to their legitimate operations, nor claim any compensation.

(2) When any of the immature stages of the mosquito are found on any premises in any collection of water in any cess pit, well, pool, channel, barrel, tub, bucket, tank or any other vessel or in any bottle, tin, box, shell, earthenware vessel or any other article it shall be lawful for the District Health Officer or any assistant authorised by the District Health Officer to take immediate steps—

(*a*) to destroy any such immature stage of the mosquito by the application of oil or larvicide to prevent the recurrence of the insanitary condition and to render any pools or collections of water unfit to become breeding places for mosquitoes;

(*b*) to collect and remove empty tins, cans, bottles or other receptacles in which mosquitoes may breed;

(*c*) to cut down and remove any grass, bamboo stumps, fern or under-growth in which mosquitoes are likely to breed or be harboured;

(*d*) to fill with concrete or otherwise treat holes or hollows in trees which hold or are likely to hold water;

(*e*) to carry out any other anti-mosquito measure.

4. The district board may, by an order in writing, require regular use of larvicides in private drains and open cesspools by owners and occupiers of any land as an anti-mosquito measure at intervals of not more than ten days, provided that the necessary materials for the purpose shall be supplied by the district board. The district board may by its own staff also cause such drains and cesspools to be treated with larvicides.

5. The district board may, by an order in writing, require the owner or occupier of any building to provide mosquito-proof coverings for the cesspools within the building and to construct yard gullies for connection with drains within such time as may be specified in the order and shall require such coverings and gullies to be maintained in proper state of repair.

6. Whenever the district board is of opinion that sub-soil drainage may improve the sanitary condition of any land, the district board may, by an order in writing, require the owner of such land to provide sub-soil drains, provided that there is a suitable outfall for such drains.

7. (*1*) No person shall, within an area in which anti-mosquito operation has been ordered to be taken up by the district board, without special permission of the district board, make an excavation for the purpose of taking earth therefrom or for making of bricks or for the purpose of storing rubbish or offensive matter therein or dig any cesspool, tank, pond, well or pit.

(*2*) If any excavation, tank, pond, well or pit is made or dug in contravention of sub-rule (*1*) the district board may, by written notice, require the owner or occupier of the land on which the same is made or dug to fill up the same with earth or other material approved by the district board within such time as may be specified in the notice.

8. The owner or occupier of any land or building shall not keep therein any bottle, unbroken or broken, whether fixed on wall or not, tin, box, earthenware vessel, shell or any other article which may hold water, in such manner that it is likely to collect or retain water which may become the breeding place of mosquitoes.

9. When the district board or the Government has constructed any work with the object of preventing mosquito-breeding, the owner or occupier of the land or building on which such work is constructed shall not use such land or building in such manner as is likely to cause deterioration or to lessen the efficiency of such work.

10. The district board may, by an order in writing, require the owner or occupier of a land or building containing an unscreened container such as a tub, bucket, barrel, cistern or other vessel intended for storage of water or any other liquid to completely empty the same every seven days unless such container is fitted with a suitable cover and is properly protected to prevent access to the mosquitoes or is screened to the satisfaction of the District Health Officer or any other officer authorised by the District Health Officer in this behalf.

11. Whenever any land, being private property or within any private enclosure, appears to the district board, by reason of thick vegetation, under-growth or jungle or inequalities of surface or by

want of drainage to be in a state injurious to health or offensive to the neighbourhood, the district board may, by an order in writing, require the owners or occupiers or the owner and occupier, of such land, within fifteen days of the service of the order to clear and remove such vegetation, under-growth or jungle or dress such surface or drain or otherwise cleanse, treat or improve such land, and when the land belongs to the district board the work which the owners or occupiers may be required to do under this rule shall be carried out by the district board.

12. If for the purpose of any of these rules it shall be necessary to acquire any land not being the property of the person who is required to drain or irrigate his land or to pay compensation to any other person, the district board shall provide such land or pay such compensation.

13. The Chairman, Vice-Chairman, District Engineer, District Health Officer or Sanitary Inspector or any other person authorised by the district board in this behalf, may enter into or on any land, building or shed, hut, outhouse, stable, privy, urinal or any other such structure whether constructed of masonry, bricks, wood, mud, metal or any other material, with or without assistants or workmen, in order to make any inquiry, inspection, examination, survey, or for the purpose of executing any other work which may be necessary for the control and suppression of mosquito-breeding and of mosquito-borne diseases:

Provided that—

(*a*) no such entry shall be made between sunset and sunrise;

(*b*) no entry shall be made without the consent of the occupier thereof unless the said occupier has received at least twelve hours' notice of the intention to make such entry;

(*c*) reasonable notice shall be given in every case even when an entry may be made without notice, to enable the inmates of any apartment appropriated to women to remove to some part where the privacy may be preserved; and

(*d*) due regard shall be paid, so far as may be compatible with the exigencies of the purpose of entry, to the social and religious usages of the occupants.

NOTIFICATIONS.

No. 52T. Com.—10th September 1936.—Whereas the Governor in Council is satisfied that the conditions of work in jute pressing factories are such that there is no appreciable risk of contravention of the provisions of Chapter IV of the Factories Act, 1934 (XXV of 1934), in the case of such factories :

Now, therefore, in exercise of the power conferred by the second proviso to sub-section (*1*) of section 41 of the said Act and in supersession of notification No. 8074 Com. of 5th August 1935, the Governor in Council is pleased to exempt all jute pressing factories from the provisions of the said section in respect of all adult workers other than the mechanical and press house staff; provided that—

(*a*) (*i*) in seasonal factories no such worker other than a worker engaged solely in the importing of raw jute shall be employed on a Sunday;

(*ii*) in factories which have been declared not to be seasonal, no such worker shall be employed on a Sunday;

(*b*) the periods for work shall be, in the case of factories in the district of Howrah, within the limits of 7 a.m. and 7 p.m. and in the case of other factories between the limits of 6 a.m. and 6 p.m., and

(*c*) the manager or occupier of any such factory shall, before he avails himself of the exemption granted under this order, serve on the Inspector and shall display in the factory in accordance with the provisions of sub-section (*2*) of section 76 of the said Act, a notice of his intention so to avail himself, and shall keep the notice so displayed for such time as he avails himself of the exemption.

No. 94T. Com.—10th September 1936.—Whereas the Governor in Council is satisfied that owing to the nature of work carried on in jute pressing factories it is unreasonable to require that the periods of work of adult workers employed in such factories other than the mechanical and press house staff should be fixed beforehand :

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 44 of the Factories Act, 1934 (XXV of 1934), and in supersession of notification No. 8111 Com., dated 5th August 1935, the Governor in Council is pleased to order that the provisions of sections 39 and 40 of the said Act shall be so relaxed that the said provisions will not apply to such workers provided the following conditions are observed, namely :—

(*a*) (*i*) in seasonal factories no such worker other than a worker engaged solely in the importing of raw jute shall be employed on a Sunday;

(*ii*) in factories which have been declared not to be seasonal, no such worker shall be employed on a Sunday;

(*b*) the periods for work shall be, in the case of factories in the district of Howrah, within the limits of 7 a.m. and 7 p.m. and in the case of other factories between the limits of 6 a.m. and 6 p.m., and

(*c*) the manager or occupier of any such factory shall, before he avails himself of the relaxation granted under this order, serve on the Inspector and shall display in the factory in accordance with the provisions of sub-section (2) of section 76 of the said Act, a notice of his intention so to avail himself, and shall keep the notice so displayed for such time as he avails himself of the relaxation.

Board of Industries, Bengal.

CALCUTTA, THE 26TH AUGUST 1936.

RESOLUTION—No. 8.

The Board considered an application, dated the 18th May 1936, from one Maulvi S. Mahmudar Rahman of Noakhali for an aid of Rs. 500 under section 19 (*1*) (*a*) of the Bengal State Aid to Industries Act, 1931 (Bengal Act III of 1931), for the purpose of starting a bakery concern at Chittagong on scientific and hygienic principles.

Ordered unanimously that the application be rejected and the resolution published in the *Calcutta Gazette*.

By order of the Board of Industries, Bengal,

A. T. WESTON,
Secy., Board of Industries, Bengal.

CALCUTTA, THE 26TH AUGUST 1936.

RESOLUTION—No. 9.

The Board considered an application, dated the 29th July 1936, from Maulvi M. A. Huson of Calcutta for a loan of Rs. 1,000 under section 19 (*1*) (*a*) of the Bengal State Aid to Industries Act, 1931 (Bengal Act III of 1931), for the purposes of (*1*) purchasing special raw material for cardboard box manufacture, (*2*) paying off the balance of the outstanding principal against the current loan under the Act and (*3*) utilising the balance as working capital for the development of his Rajabazar Cardboard Box Works.

A report of inspection on the progress of the business and the nature of the security offered was read. It was unanimously decided as follows:—

Order—Ordered that in view of Government notification No. 4313 Ind., dated the 7th July 1936, the application need not be advertised as required under rule 3 of rules under section 16 of the Act. Ordered also that in exercise of the powers conferred in Government notification No. 4312 Ind., dated the 7th July 1936, the loan of Rs. 1,000 asked for be paid subject to the following conditions:—

(*1*) that the outstanding principal with interest on the existing loan to the credit of the applicant be paid off before making the above loan of Rs. 1,000;

(*2*) that a mortgage bond be executed by the applicant in the form drawn up by the Solicitor to the Government of Bengal;

(*3*) that interest be charged at the rate of 6¼ per cent. per annum payable with each instalment on the balance of the unpaid principal;

(*4*) that the entire loan be repaid in five annual instalments of Rs. 200 each *plus* interest, each instalment being payable in September of each year beginning with September 1937; and

(*5*) that penal interest be charged at the rate of 8 per cent. per annum on any overdue instalment of the payment of the loan.

Ordered also that the resolution be published in the *Calcutta Gazette*.

By order of the Board of Industries, Bengal,

A. T. WESTON,
Secy., Board of Industries, Bengal.

CALCUTTA, THE 26TH AUGUST 1936.

RESOLUTION—No. 13.

The Board considered their resolution No. 16 of the meeting held on the 24th June 1936, unanimously recommending the grant of a loan of Rs. 400 to Md. Hazrat Ali of Shulahashia, Mymensingh, for the purpose of purchasing a sewing machine for his existing boot and shoe factory, prayed for in his application, dated the 6th April 1936, under section 19 (*1*) (*a*) of the Bengal State Aid to Industries Act, 1931 (Bengal Act III of 1931), which had since been advertised in accordance with rule (*3*) under section 16 of the Act and in response to which no objection has been received.

In exercise of the powers since conferred on the Board in Government notification No. 4312 Ind., dated the 7th July 1936, and the Board having been satisfied that the security offered against the loan is adequate as required under the Act, it was ordered as follows :—

That the loan of Rs. 400 asked for be paid subject to the following conditions :—

(*1*) that a mortgage bond be executed by the applicant in the form drawn up by the Solicitor to the Government of Bengal;

(*2*) that interest be charged at the rate of 6¼ per cent. per annum payable with each instalment on the balance of the unpaid principal;

(*3*) that the entire loan be repaid in five annual instalments of Rs. 80 each *plus* interest, each instalment being payable in September of each year beginning with September 1937; and

(*4*) that penal interest be charged at the rate of 8 per cent. per annum on any overdue instalment of repayment of the loan.

Ordered also that the resolution be published in the *Calcutta Gazette*.

By order of the Board of Industries, Bengal,

A. T. WESTON,
Secy., Board of Industries, Bengal.

Orders by the Registrar of Co-operative Societies, Bengal.

No. 1-L.—10th September 1936.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Shamukjani Paschimpara Co-operative Samiti (registered No. 69 of 1925), in the subdivision Kishoreganj in the district of Mymensingh, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint the Inspector of Co-operative Societies, Kishoreganj, to be liquidator of the said society.

NOTICE.

Senate House, the 31st August 1936.

The Senate will proceed in the month of August 1937 to the election of a Tagore Professor of Law for a term of one year, to commence on the 1st August 1938.

The salary of the Professorship is Rs. 9,000 per annum and the Professor will be expected to deliver a course of *not less than twelve lectures* on one of the following subjects:—

(*i*) Moslem Law as administered in British India.

(*ii*) The Law of Partnership with special reference to British India.

(*iii*) Principles and History of Insurance Law with special reference to India.

The salary of the Professor will be paid in twelve *equal monthly instalments*, the first instalment to be paid on the first day of the month following that in which the first lecture is delivered.

Candidates for the Professorship are required *to forward their applications to the Registrar on or before the 1st May 1937*, stating on which of the abovenamed three subjects they are prepared to lecture. Each candidate will forward, with his application, *one hundred copies of a brief synopsis of his proposed lectures* and, if he so pleases, *the same number of copies of his introductory lecture*.

The Professor will, not later than the month of August following his election, forward to the Registrar a complete copy (manuscript or typewritten) of the lectures which he proposes to deliver. The copy will be forthwith referred by the Faculty of Law to a Committee of not more than three persons to be selected for their special competence in this behalf, who will examine the same, and, before the expiry of two months from the date of the submission of the copy by the Professor to the Registrar, report to the Faculty whether the work is complete and ready for the Press. If, upon such report, the Faculty are satisfied that the work is complete, the Professor will commence to deliver his lectures within three months from the date of the resolution of the Faculty and shall complete the delivery thereof in another three months. The copy of the lectures delivered will remain in the custody of the Registrar and shall be sent to the Press, as soon as practicable, after delivery thereof.

If the Professor fails to submit the copy of the lectures, or if the copy submitted be found, on examination, to be incomplete and not ready for the Press, the matter will be referred to the Faculty of Law, upon whose recommendation the Senate may either extend the time or cancel the appointment.

J. CHAKRAVORTY, *Registrar.*

Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

Senate House, the 12th September 1936.

Suri, the 2nd September 1936.

[ILLEGIBLE], *for* Collector.

Advertisement of sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the B. A. K. Section of the East Indian Railway, in the district of Murshidabad, will be put up to sale at 12 o'clock noon on the 10th November 1936 corresponding to 24th Kartik, 1343 B.S. (Fasli), at the Court of the Subdivisional Officer, Jangipur, district Murshidabad.

The purchasers of the several plots of lands will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase money does not exceed Rs. 100 the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold subject to an annual assessment of Rs. 34 which will be subject to revision at the next general settlement of the temporarily-settled estates of the district to the highest bidders.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and a regular conveyance will then be granted to the purchaser.

Chittagong, the 9th September 1936.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

TENDERS are invited for binding the records-of-rights of Midnapore Settlement. Samples may be seen in the office of the undersigned at 35, Gopalnagar Road, Alipore, on office days between 11 a.m. to 5 p.m., and tenders submitted in sealed covers so as to reach the Settlement Officer positively by 24th September 1936.

The Sri Chitra Exhibition 1936

Trivandrum, Travancore.

The above Exhibition will be held in Trivandrum in connection with the celebration of the next birthday of His Highness the Maharaja of Travancore which will fall on the 12th November 1936. Arrangements will be in the hands of a large and responsible Committee composed of leading officials and non-officials and will be conducted on up-to-date lines with Government co-operation. The Exhibition will afford an opportunity for Agriculturists, Industrialists, Manufacturers, etc., to exhibit and advertise their wares.

Exhibits from all over India, whether manufactured in this country or abroad, will be welcome. Accommodation for exhibits (except machinery) will be provided in stalls $10' \times 10'$ available singly or in multiple units. Stalls of special dimensions at special rates may be had on application. Machinery exhibits will be housed in machinery sheds.

There will be a general stall for exhibiting small articles and rare specimens for the convenience of those exhibitors who do not attend in person or send their representatives; for this a minimum rent will be charged, *plus* a 10 per cent. commission on sales.

Arrangements will be made with the Railway Companies for freight concessions on exhibits.

There will be eight sections, viz., (*a*) Raw materials, (*b*) Manufactured goods, (*c*) Rural industries, (*d*) Machinery and Implements, (*e*) Education, (*f*) Public Health and Sanitation, (*g*) History and Archaeology, and (*h*) Fine Arts. These sections will be sub-divided into appropriate groups.

A detailed prospectus containing the Rules, the Ground Plan, etc., will be published shortly.

Further information can be had from:—

SUPPLEMENT.

Official Papers.

Annual Report of the Royal Botanic Garden and the Gardens in Calcutta and of the Lloyd Botanic Garden, Darjeeling, for 1935-36.

Royal Botanic Garden.

1. **General.**—The art of gardening amongst the general public of Calcutta is coming into its own. No one who has a faculty of observation developed to any degree and who remembers gardening of 15 or 20 years ago can fail to be impressed by the immense improvement that has taken place in the appearance of Calcutta Gardens and in the variety of flowers now generally cultivated here. The interest has become general; it is no longer confined to a class; it has caught on.

The excuse made in an examination paper a quarter of a century ago by a Calcutta student will no longer gain the minimum pass marks. The fern was a plant that grew in the rich man's garden, he said, and how, therefore, could he be expected to outline its life history. Necessity is the mother of invention and ingenuity is always worthy its due, but the patent of 1914 has run out with the variety and profusion of all kinds of plant now grown in the poor man's garden.

To the Indian a love of flowers is natural. He has a long history of interest in gardening to his credit. The plants with which he lives have been taken by him to many of his religious rites and institutions. They are part of his history, and there are crops of them scattered throughout his mythology. But it is increase in his garden variety and profusion that is noticeable of later years, and if we try to seek reasons for this they may be found in the increased opportunity he has through the services of horticultural firms and societies and in the facilities that now offer for the rapid introduction of varieties that are gaining a place in gardens throughout the world.

From the scientific side of the horticultural effort he benefits by the breeding and crossing experiments going on from which a variety of forms hitherto unknown and unsuspected have come to supplement the stocks he formerly had at his disposal.

The average gardens of Calcutta some 20 years ago might have contained all or some of the following:—

Phlox, Verbena, Dianthus, Pansy, Carnations, Nasturtium, Cosmos, Salvia, Sweet Peas, Balsams, Zinnias, Gomphrena, Browallia, Gaillardia, Coreopsis, Hollyhocks, Cannas and Sunflowers. To-day these are all there, but besides the immense improvement in the kinds of them grown we should find now in plenty though formerly rare Dahlias, Double Nasturtiums, Delphiniums, Gladiolus, Stocks, Clarkia, Gypsophila, Eschscholtzia, Statice, Ageratum, Anchusa, Aster, and a host of others. Perhaps the most marked change is in the variety and profusion of Dahlias and Cannas now grown. The Royal Agri-horticultural Society is able to take credit for not a little of the improvement that has taken place in the Canna section.

To say that the variety has been trebled in the last two decades is a conservative estimate and to recognise the enormous improvement effected is a merited compliment to the widespread interest now taken in matters horticultural.

The Royal Botanic Garden has taken its full share in the advance made in the purely horticultural side of its activities. Every year sees a new effort made to test and establish plants not formerly tried, while the standard of production accomplished bears creditable comparison with the effort of lesser known institutions. The exhibits that the Curator has this year put up at horticultural shows have more than held their own in the opinion of the most competent judges. The exhibits were not specially prepared for shows and in quality were fairly representative of the general stocks in cultivation at the gardens.

Improvements effected in the garden during the year range over all sections of its activities; but the progress made towards inclusion of economic plants, especially those of interest to the fruit culturist, deserves special mention. Of recent years the mango has been receiving more than a usual share of attention. Modern methods of transport in cold storage or under other conditions that inhibit the growth of decay organisms have drawn attention to its possibilities in foreign markets. Exhibitions devoted exclusively to the mango, a new departure, are even being organised. The garden was unnecessarily poor in good stock of this tree and additions during the year of 140 mango grafts of good variety were planted out to make good the deficiency. It is unlikely that they will all do equally well but a wider range of material is now here from which in time selections may be made and stock distributed.

Other fruit bearing species will be added till a more just balance in the garden of plants of the purely scientific and economic kind is reached.

The rock garden to which reference was made in recent annual reports has been extended and the following plants added to it :—

Macleaya yedoensis, Taxus baccata, Erigeron canadensis, Thermopsis fabacea. Chrysanthemum coccineum, Fragaria indica, Lobelia syphilitica, Chrysanthemum parthenium, Rosa flexuosa, Robinia hispida, Lupinus polyphyllus, Cercis Siliquastrum, Sophora Sp., Mirabilis Froebelii, Isatis tinctoria, Lotus corniculatus, Senecio clivorum, Cichorium Intybus, Talinum crasiifolium, Gerbera Jamesoni, Lupinus perennis.

The Curator reports that the year was not very favourable for planting out operations, but the increased importance given to the inclusion of species new to or rare in the garden has not been forgotten. His record of additions includes : —*Clematis integrifolia, Moringa oleifera, Cordia tremula, Dalbergia paniculata, Melia sempervirens, Bauhinia retusa, Pistacia chinensis, Dalbergia hupeana, Clerodendron trichotomum, Peltophorum africanum, Balanites aegyptiaca, Cryptostegia madagascariensis, Sideroxylon dulcificum, Ochna mossambicensis, Aristolochia, altissima, Callitris quadrivalvis, Acacia mollifera, Guazuma ulmifolia, Psidium pumilum, Bauhinia pulchella, Schinus dependens, Ficus colinifolia, Araucaria brasiliensis, Casuarina lepidophloia, Pavetta indica, Diospyros halesioides, Acacia spadicigera, Clerodendron tuberculatum, Acacia Richii, Ischira rosea, Garcinia tinctoria, Rheedia sp., Bauhinia scarlet, Tecoma argentea, Calophyllum antillerum.*

The short rainfall, itself, combined with the reduced normal period of fall affected not a few garden plants in the open, and numbers especially in the riverways entrance to the garden, the Oreodoxa Avenue, had to be removed. This Avenue, so well-known to garden visitors, is now losing its former beauty. Every year one or more members of its stately palm disappear. It is already beginning to look ragged and it must be years before the line of replacements effected some five years ago grows up to allow of a mass removal of the old trees. With the palmyra replacement is easier, for this palm grows so much more quickly that within ten years gaps are nearly filled and the symmetry of its avenues is regained.

In addition to the routine work of the garden the Orchid House has been repaired and a special effort made to make good the damage done to garden labels. This last work is going on apace, but replacement will henceforth have to be viewed as routine work, for time alone and the weather is not responsible for the deterioration in lables that takes place. One would think that a label bearing a Latin name with the name of the family to which a tree belongs and its geographical distribution could excite resentment from no quarter, but the manner in which labels get bent and broken belies the assumption. The damage must be the work of a few malcontents, for the great masses of garden visitors of all classes are orderly and appreciative of what is done for them.

No major work could be undertaken during the year, but a few coolie houses have been partially erected near the economic ground so that some garden labour may live nearby and be able to keep an eye on plant products that excite more than a legitimate interest.

A lotus bowl for experimental work on water plants in the open has been dug near the flower garden and new beds of roses planted up. The garden is now very much richer in the rose class than it formerly was but as with the orchids, rose stock has continually to be introduced. It deteriorates and not all kinds do equally well. Some only just survive. As has been pointed out before the climate of Calcutta is not well suited to this class of plant: Some of our stock has come from abroad but the garden can now depend for regular supplies on the finely stocked gardens of Upper India where the conditions suit it so much better than in Bengal.

As in recent years large numbers of potted plants have been staged out at vantage points throughout the garden.

Experiments on the pollination of Amherstia have been repeated with encouraging results. Some of the seed has gone to Kew where success with the germination of last year's small supply had not been obtained. This tree is in great demand by horticultural institutions throughout the world. Although there is no great difficulty in establishing rooted cuttings of it, the expenses of transporting these in wardian cases militate against its wider distribution. Fertile seed is rarely found, the production of racemes of pendulous flowers, quaint, orchid like and highly specialised seeming to absorb most of the plant's energy leaving little for the production of fertile seed. The absence too of the right pollen carriers, the flowers not seeming to be visited much by insects, may also be responsible for the scarcity of seed. The tree does well under shady conditions at Sibpur, but it is not native here. A suggestion might be made for pollination experiments to be carried out in Burma where it is native and locally not uncommon. Results might be better.

The introduction or reintroduction of cónifers to the garden has been continued. The Araucarias do best, then come some representatives of the genera Pinus and Thuja. These are being added to and others tried.

The limitation of funds made it impossible to do any excavation to the garden tanks and not until machinery replaces the expensive man handling methods ordinarily employed where excavation is in question are we likely to see the garden tanks in a healthy state. Estimates of expenditure for deepening the limited tank area in the Eden Garden will

show how remote is the probability of our seeing this desirable improvement carried out extensively at Sibpur. But in spite of this and other defects the garden looks well. For the benefit of visitors who like to find its secluded spots it is all mowed and rolled several times a year. Modern machinery has come to our aid in the maintenance of its vistas, glades and maidans in lawn like condition. In this respect as in respect of the amount cultivated it is a much richer, more attractive and interesting place than it formerly could be.

Its roads now mostly macadamised, compare favourably with those of its neighbourhood, and the river bank from a point east of the ghat to the west end of the garden is fully revetted. This work has gone over to another department. It has proceeded apace and has rendered the garden much more attractive from the river side. The visiting public shows no decline in numbers, Indians especially flocking to it during fetes and holidays, and it remains a regular rendezvous for the school children of Calcutta.

2. **Plant and seed exchange.**—For horticultural and roadside planting schemes some 8,055 plants were dispatched to institutions in India while 462 packets and 28 lbs. of seed went out. Some 594 plants and 975 packets of seeds were received.

3. **Herbarium and Library.**—The total number of specimens determined is about 3,500 the majority being represented by collections from the Eastern Himalaya. These gatherings of Sikkim plants include a set of valuable specimens brought from Bhutan by His Excellency Sir John Anderson, Governor of Bengal. These specimens have since been worked out by the Curator of the Herbarium, who reports that some of the species of His Excellency's collection appear to be new records. Three or four specimens which could not be matched here had to be sent to Kew and Mr. Biswas expects that at least a couple of them may turn out new to science. These East Himalayan plants also include Mrs. Townend's collections during her trip to Northern Sikkim. A collection of about 290 specimens from Captain Kingdom Ward proved to be a substantial addition to the plants of the Naga Hills, Assam. All these specimens have been identified and mounted. A complete set has gone to the British Museum together with the list of identifications as desired by Captain Kingdom Ward. The collections of Dr. N. L. Bor and Mr. Biswas from Sandakphu and Phalute form also a fair portion of this year's identification ; besides several others received from Messrs. Parkinson of Dehra Dun, Purkayastha of Shillong, Ram Chandra Rao of Karachi. A. C. Dutt of Gauhati College, F. M. Bailey of Nepal, Mother Monica, C. E. Saxton and S. R. Bose of Calcutta and others.

The total number of specimens sent on loan this year is about 421, a much larger number than in the previous year, although the number of correspondents and the variety of specimens supplied are nearly the same. About 95 sheets of Psilotum were scrutinised by Mr. C. E. Parkinson. Mr. C. Norman of the British Museum of Natural History examined critically 77 sheets of Pleurospermum. Y. Tsiang of the Sun Yatsen University, Canton, China, studied 6 lots from the herbarium belonging to the genera *Aganosma*, *Toxocarpus*, and *Gonioslemma*. Dr. S. P. Agharkar of the Calcutta University has

had 29 sheets of *Monotropa*. Some 10 sheets of *Daemonorops* were sent for study to the Director of the Botanic Gardens, Singapore while 116 Liverworts formed the subject for study of Mr. R. S, Chopra of the Punjab University who reports about a dozen of them as new records.

The specimens received back from loan is about 754. Mr. J. B. Hutchinson who was engaged in a monographic work of cultivated cotton plants returned, after revising the names, 554 sheets of specimens of Gossypium sent to him last year. Dr. H. N. Moldenke, Assistant Curator, the New York Botanic Garden, who is engaged in the study of the sheets of the genus Avicennia, returned 164 sheets belonging to this herbarium after incorporating necessary notes. About 36 specimens of a Dipterocarpus lot have been received back from the Forest Botanist, Federated Malay States Museum. From China, Tashkent and Singapore came 336 sheets presented and from other localities smaller numbers.

Plants going out on an exchange basis include 200 local species to Formosa, 30 specimens of Phœnix to America and a collection of flower buds of 17 species in special preserving fluid to Sweden. The National Herbarium, Manila, and other institutions throughout the world also benefited. Enquiries from very many sources on questions that can be answered or regarding which help can be given continue to come to the herbarium.

Some 3,173 specimens have been mounted, 5,097 specimens incorporated and 600 covers changed. The herbarium has this year unfortunately lost through death the services of an expert mounter Debendra Nath Nasker. It is not easy to procure the right type of man for this delicate work of mounting and it takes long experience to acquire the art.

Exploration was largely kept in abeyance due to the Superintendent being on leave but the Officiating Superintendent during the course of inspection work at Darjeeling made a tour to higher elevations.

In addition to Indians who came to headquarters several foreign visitors also visited the herbarium on special quests. Mr. Dowson formerly of the Irak Agricultural Department was helped with the palms and on the methods of their tapping ; Professor Tanaka made a prolonged study of our material and literature of Citrus.

Short papers on "Jute and allied fibres" ; The "Organic growth of the Calcutta Filterworks" ; "The Position of the genus Sansevieria in India" ; "The Vegetation of the Hazaribagh district" and "New species from Assam" were contributed by the Curator of the Herbarium.

The treatise on Water plants has attained a larger dimension than was originally intended and delay has resulted in consequence of the inclusion of more cryptogams, but the writing of the work is now completed and the plates nearly all prepared.

The library has been maintained, 30 periodicals being bought and some 196 received on exchange. Several books have been added and the demand for loans increases.

4. **Publications.**—The second part of the text of Sir David Prain and Mr. Burkill's monograph, the genus Dioscorea, is still in the Press.

5. **Finance.**—Out of the total budget allotment of Rs. 48,406 for staff and permanent establishment Rs. 48,382 were spent and under all other heads the expenditure amounted to Rs. 46,862 against the total allotment of Rs. 47,276. There was a net saving of Rs. 438 under all the heads during the year. Receipt of the department during the year amounted to Rs. 2,094.

6. **Staff.**—The writer hold the post of Superintendent from 1st April to 30th May 1935, and from 30th November, 1935, to the end of the year. He was on leave out of India from 31st May to 29th November 1935. Mr. K. Biswas was Officiating Superintendent for the six months and was Curator of the Herbarium from 1st April to 30th May 1935, and from 30th November 1935 to the end of the year. Mr. V. Narayanaswami was Officiating Curator of the Herbarium from 31st May to 29th November 1935. Mr. N. Mitra was Curator of the Garden throughout the year. Mr. Md. Quasem Ali was Assistant Curator, Royal Botanic Garden, Calcutta, throughout the year. Mr. K. S. Joneja was Overseer, Royal Botanic Garden, from 1st April to 18th September 1935, and from 1st November 1935 to the end of the year. He was on leave from 19th September to 31st October 1935.

Mr. A. T. Banerjee was Head Clerk throughout the year. All officers and the clerical establishment have performed their duties satisfactorily.

CALCUTTA GARDENS.

Work in these gardens which include the Eden, Dalhousie Square and Curzon Gardens was again mainly of a routine character. As elsewhere the short rainfall had the effect of delaying planting of winter annuals and the display of these was later than usual. It was, however, in appearance up to the average.

Social function at the Eden Gardens in honour of Their Excellencies The Viceroy and Countess Willingdon also affected to some extent the location and time of planting of annuals, the vicinity of the pagoda being left over till the second week of December.

Number of flowering shrubs and trees were planted out and an improvement effected in the hedges that lead from the pagoda to the bridge. These hedges were being destroyed by visitors who wished to gain short cuts and the *Acalyphas* composing them were replaced by Barleria, it being thought that this would be more resistant to encroachment and at the same time provide a change in the colour effect. The result is satisfactory.

The stocks of ferns and potted palms and orchids were maintained and increased by propagation.

As a result probably of differences in the water-supply the Eden Gardens prove a very much better place than the Sibpur Gardens for the development of Victoria regia. The leaves of this aquatic reached an enormous size. They became interesting objects to the public for photographic purposes and the plants flowered well.

A welcome collection in exchange was received from the Municipal Gardens, Bombay. This included a considerable number of Marantas for the shade houses and of varieties of Hibiscus for the open. The buildings, roads and benches have been kept in as good order as the limited funds would permit.

In the Eden Gardens some 42,000, in the Curzon 16,000 and in the Dalhousie Square Garden 13,000 square feet of road were attended to.

Estimates have been prepared for the excavation of the tanks in the Eden Gardens. Their proximity to Government House and the Council Chamber render it necessary that they should be free of mosquito larvæ, and the proposal to excavate them has the object of making the locality more sanitary. It is not likely that a scheme of this magnitude will readily find a place in the schedules for new expenditure and the ordinary and not very satisfactory palliatives of cleaning and spraying with oil will have to be continued.

The Gardens as a whole look well and there is continued improvement in the Curzon Garden.

One bad factor that will require more attention in the coming year is the state of the iron fences in the Eden Gardens. The budget allotment has been fairly distributed to the most necessary works and the state of all the gardens reflects this.

Finance.—Out of the total grant of Rs. 30,763 under all heads Rs. 30,754 were spent leaving a balance of Rs. 9. Receipts of the Calcutta Gardens during the year amounted to Rs. 10.

Staff.—Mr. Merlin Jones was Assistant Curator, Government Gardens, Calcutta, throughout the year, Mr. Gholam Muhiuddin was Overseer from 1st April 1935 to 2nd March 1936. He went on leave for three months from 3rd March 1936. Mr. J. A. Hulbert, Overseer, Cinchona Plantation, Munsong, acted in his place from 3rd March 1936 to the end of the year.

LLOYD BOTANIC GARDEN, DARJEELING.

The rainfall at this Garden was 107·8 inches over the year, being below the average. But heavy continuous rain nevertheless destroyed seedlings in the open and replacements had to be made in beds in some cases more than once. The routine work of the Garden has been continued and several attempts at improvement made. Amongst these the most important was a renovation of the rockery. This involved the transport of fresh material to the Garden but the result has been much appreciated by the visiting public. A small ferroconcrete bridge and an artificial waterfall have been added to enhance the effect of the improvement. Species of the following genera from alpine and temperate regions have been planted up in the rockery :—Rhododendron, Rosa, Strobilanthes, Agapates, Vaccinium, Genista, Cotoneaster, Swertia, Spiraea, Lilium, Sexifraga, Anaphalis, Aster, Primula, Hypericum, Lonicera, Allium, Onosma, Pentapterygium, Gentiana, Smilax, Iris, Ranunculus, Berberis,

Daphne, Veronica, Helianthemum, Cathcartia, Meconopsis, Achillea, Arenaria and others. Several of these were collected by the Curator while on botanical tours.

Besides the usual display of flowers on beds the special beds of Meconopsis Wallichii, M. nepalensis, M. combrica, Cathcartia villosa, Primula cashmeriana grown from acclimatised seed, Lilium Nepalense, L. giganteum and L. Wallichii attracted many visitors. The Curator also records a long list, some of interesting or rare flowers in this part, that bloomed during the year. He has added to the Garden collections of orchids by drawing freely on the local jungle supply at the elevation of Darjeeling or lower down. Parts of the lawns have again had to be combed to restrict the growth of moss. Only those who have tried to maintain pure lawns in a damp climate at such elevation in the Estern Himalayas can know how repeatedly the operation of combing has to be done to secure a satisfactory turf.

Some 196 young plants were put out to permanent situations in the Garden during the year. The list includes additions to species already there, repeat trials with those that had not previously succeded and a few plants new to the Garden ; chizandra grandiflora and Stephania rotunda are new additions.

A fairly large number of additions was made as a result of exchanges with the Sun Yatsen Memorial Park, Nankin, China. It is to be recalled that the Lloyd Botanic Garden freely gave material to help and establish the Memorial Park some years ago. From China we are now in receipt of Aucuba chinensis, Idesia polycarpa, Vanieria tricuspidata, Deutzia pilosa, Prunus rufomicans, P. anomala, P. Willsonii, P. pubigera and species of Photinia, Lonicera, Cassia, Lindera, Rubus, Hydrangea, Clematis and other more or less temperate plants.

Some 5,009 packets of seeds, 313 plants and 9,969 seedlings were distributed.

The herbarium and library were kept in good condition and added to. The existence of a local herbarium in Darjeeling may not be so generally known as it should be. It is possible that more local collectors would use it if they knew of its existence. It is the work of successive Curators of the Garden, especially of Mr. Cave, and contains a fairly representative set of the plants of the Darjeeling district. The Curator will be glad to place its collections at the disposal of any local botanists who call to compare specimens and if they fail there the staff at Sibpur will always be glad to supplement the help from headquarters.

Two botanical tours were undertaken by the Curator during the year one to the higher and one to the lower elevations and he helped Mr. Biswas during the latter's inspection with materials for a Guide-book.

Over 47,000 visitors were counted at the gates.

As in former years the garden staff did what was possible to make the local annual flower show a success. The alpine groups staged by the garden were not at their best but the public showed its usual interest in them all the same.

Finance.—Out of the total allotment of Rs. 15,774 under all heads Rs. 15,543 were spent and a sum of Rs. 219 was surrendered leaving a a small balance of Rs. 12.

Staff.—Mr. S. N. Basu was Curator, Lloyd Botanic Garden, Darjeeling, throughout the year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 9th September 1936.

Monthly Weather and Crop Report of Bengal for August 1936.

I. *Character of the season.*—During the month under review, the rainfall was below the normal throughout the Presidency, except in Birbhum, Bankura, Jalpaiguri, Pabna, Dacca, Chittagong, Chittagong Hill Tracts and the Tripura State, where the fall was above the average. The usual rainfall statement is appended.

II. *Progress of agricultural operations.*—Transplantation of winter paddy continued favourably, except in parts of West and North Bengal, where more rain was needed to facilitate the operation. Harvesting of autumn paddy, cutting, steeping and washing of jute were in progress.

III. *The state of standing crops.*—The state of standing crops was generally satisfactory.

IV. *Prospects and probable outturn.*—The prospects of standing crops were reported to be generally fair. The outturn of sugarcane is expected to be 83 per cent. of the normal.

V. *Damage to standing crops.*—Some damage was caused to standing crops by insect-pests and floods.

VI. *Condition of agricultural stock.*—The condition of live-stock was generally fair. Sporadic cases of cattle-disease were, however, reported from thirteen districts in the Presidency and from Cooch Behar and Tripura States.

VII. *Failure of pasturage and fodder.*—Insufficiency of fodder was reported from parts of Birbhum, Rajshahi and Pabna.

VIII. *Prices of food-grains.*—During the second fortnight of the month the retail prices of common rice of the cheapest quality rose in seven districts and fell in four. The prices ranged from 9 seers per rupee in Darjeeling to 13 5/16 seers per rupee in Tippera.

IX. *Condition of agricultural population.*—The condition of agricultural population was, on the whole, fair, except in parts of 24-Parganas, Nadia, Murshidabad, Khulna, Bankura and Burdwan, where distress continues.

DARJEELING, THE 9TH SEPTEMBER 1936.

RESOLUTION—No. 426T.A.I. AGRI.

Minister-in-charge: The Hon'ble Nawab Sir Mohiuddin Faroqui, Kt., of Ratanpur.

Read—

The Annual Report of the Department of Agriculture, Bengal, for the year 1935-36.

Administration.—Mr. K. McLean continued in charge of the Department throughout the year. He was confirmed as Director of Agriculture, Bengal, with effect from the 20th October 1935 on retirement of Dr. G. P. Hector.

On return from leave in October 1935 Mr. M. Carbery, Agricultural Chemist, Bengal, took over charge of the post of Assistant Director of Agriculture, Bengal, from Mr. P. C. Chaudhuri, being confirmed in the post at the same time. Mr. P. C. Chaudhuri, Deputy Director of Sericulture, was appointed as Deputy Director of Agriculture, Eastern Circle, in October 1935, in place of Mr. F. Smith, retired, on being relieved by Mr. Carbery. In March 1936 Rai Sahib Jamini Kumar Biswas, who was officiating as Deputy Director of Agriculture, Northern Circle, went on leave preparatory to retirement.

Dr. S. Hedayetullah, M.Sc. (Cal.), PH.D. (London), was appointed as Economic Botanist, with effect from 1st October 1935.

General.—The season was a very difficult one for agricultural operations. Owing to shortage of rain, the sowings were generally late specially in highland areas, but in East and parts of North Bengal lowland sowings were carried on satisfactorily with the usual soil moisture. Although general rainfall from the middle of May till June facilitated *kharif* sowings in Western and Northern Bengal and the preparation of winter paddy seed beds, subsequent periods of shortage of rain followed by a long spell of drought seriously affected the winter paddy crop and the *rabi* crops. Western Bengal was most seriously affected and in the districts of Burdwan, Birbhum, Bankura, Hooghly and Murshidabad, which suffered from drought in the previous year, little or no crop was obtained over wide areas and scarcity had to be declared. The only crops returning a normal outturn were jute and lowland *aus* paddy for which the season was favourable.

The intensive campaign for the restriction of the area under jute which was undertaken in 1934-35 by officers of the Agricultural Department with the assistance of the local officials and non-officials bore fruit in the shape of a considerable reduction in the area under the crop and in improvement of its prices. As the underlying object of the restriction was to restore a healthy price-level by bringing the surplus stocks of jute back to normal and avoiding a glut in the market and as it was realised that it would be disastrous if, in the hope of immediate profits, the cultivator failed to restrict to the full extent during the coming season, vigorous propaganda was again undertaken for restriction of the area under the crop during 1935-36. To ensure success a considerable number of temporary demonstrators were also employed to instruct the cultivators in the cultivation of *rabi* crops and to introduce alternative crops such as sugarcane and groundnut.

Research and experiment.—Considerable success attended the activities of the research section during the year where full advantage was taken of the financial assistance offered by the Imperial Council of Agricultural Research and of the advice afforded by their experts. As many as seven schemes of research were worked with their grants, noteworthy among them being those relating to trade rices, sugarcane, fruits, marketing and animal nutrition. At the Universities of Calcutta and Dacca also research work on soils and soil colloids, on nutrition of rice plant and on experimental errors in field trials was continued with their grants. It is confidently hoped that by the successful working of these schemes results of far-reaching importance will be achieved before long which will go a great way towards the amelioration of the economic condition of the cultivating classes.

The work on the scheme for investigation of the possibilities of improving Comilla cotton which was started in the previous year was continued with the grant of the Indian Central Cotton Committee.

That the value of sugarcane as a revenue crop has been recognised by the cultivator would be apparent from the fact that the area under the crop increased from 276,000 acres to 325,000 acres during the year, of which 244,000 acres were reported to be under C. O. 213. Eight vacuum pan factories and 54 open pan factories worked during the season with a full supply of cane. During the year 19,072,000 of C. O. 213 cuttings were distributed. Rupees 15,500 was also sanctioned to meet the cost of cuttings in introducing sugarcane as a substitute crop for jute.

Fifteen new types of cane were introduced into the field testing area from the seed-testing station. Of the types already under investigation C. O. 281 and C. O. 381 proved most promising early ripeners.

There was an increasing demand for departmental types of tobacco and during the year, 4,911 tolas of seed were distributed. The number of demonstration centres was 441 extending over 140 acres and the total area under tobacco was 307,000 acres, of which 70,000 acres were reported to be planted with departmental types.

The investigation into the manurial value of Damodar silt was continued, the silt being found to be rich in all manurial ingredients—Nitrogen, Potash and Phosphate. The investigations undertaken in connection with the economic enquiry into the cost of production of cane and other crops in certain tracts of Bengal showed that in the soils in Bogra and Birbhum lime is lacking, and in Bogra Potash is more than sufficient throughout while Nitrogen and Phosphate are only sufficient in the surface soil. The Birbhum soils were found to be lacking in all essential plant foods.

Several samples of 1934 crop of jute from the experimental plots in different farms in the province were sent to the Dundee Chamber of Commerce and the assessors placed a new type, D. 386 in the first category. This type is a heavy yielder, the yield exceeding that of D. 154 on the Rangpur and Mymensingh farms. In the Olitorius trials, Chinsura Green proved superior to all the other types tested against it.

Animal husbandry.—The Department was fully alive to the necessity of maintaining a sustained effort to attract that unofficial support and interest in live-stock improvement which is so essential to real progress. While the main difficulty in the way of the improvement of stock has been shortage of funds, it was possible to undertake an intensive campaign in the districts of Malda-Rajshahi, Nadia-Murshidabad, Hooghly-Bankura, Dacca-Faridpur and Tippera-Noakhali under the charge of 5 live-stock officers, of whom 3 were appointed during the year. 230 bulls were in charge of the live-stock officer in Rajshahi-Malda and 65 under the charge of the officer in Hooghly-Bankura districts. 19 stud bulls were issued free from district farms and 14 were sold for stud purposes in the districts. The bulls were chosen with great care having regard to their suitability to the type of the cows in the districts concerned and the fullest possible advantage was taken of the pedigree stock available at the Government farms. As regards progeny of the stud bulls, the district boards of Malda and Rajshahi continued to contribute towards the purchase of bulls sired by departmental stud bulls. They also purchased 17 selected bulls from jails for free issue. The district boards of Murshidabad and Hooghly also allotted funds for the purchase of bulls. The premium scheme continued and with a view to meeting the demand for premia from an increased number of owners of bulls and allowing their bulls to come under departmental supervision the amount of premium for each individual premium holder was reduced from Rs. 10 to Rs. 5 each per mensem. The bulls under the premium system covered 3,908 cows against 2,733 in the previous year.

Funds were obtained during the year from the Government of India grant for rural uplift and in accordance with the scheme sanctioned in connection therewith 100 stud bulls will be provided in each of the 10 districts in which live-stock officers are at present posted. In addition to ensuring the most profitable use of these bulls the live-stock officers will endeavour to impress on cultivators and others in their areas the essential importance of preventing breeding by existing bulls of inferior quality. To this effect 10 veterinary officers are also to be posted in these districts for a period of two years to undertake an intensive campaign of castration of scrub bulls.

In the poultry section at the Dacca farm the sixth R.I.R. Chittagong cross continued to prove successful, the best layer laying 240 eggs in the year against 125 eggs of the fifth cross laid during the previous year.

In accordance with a scheme for the improvement of poultry sanctioned at a total cost of Rs. 500 out of the Government of India grant for rural unlift, it is proposed to distribute among cultivators in each of the 10 districts supervised by live-stock officers 20 selected mating birds from the poultry section at Dacca on condition that they agree to get rid of their old male stock.

There has been a continued demand for cuttings of Napier grass which it has been difficult to meet. Around every homestead there is a considerable area of land which is at present not being put to use, and the Department are taking up the introduction of Napier grass in these areas.

Demonstration and propaganda.—While the activities of the Department on the demonstration and propaganda side continued on the usual lines through lantern lectures in hats, exhibition and fairs, through the medium of wireless talks on agriculture given by departmental officers in Calcutta and through cinema shows and departmental publications, it is very satisfactory to note the increasing interest which a large number of district and union boards, as well as khas mahals and Court of Wards estates have taken in the matter by the provision of funds for demonstrating staff and for distribution of seeds, etc.

It is unfortunate that the weather conditions in Western Bengal proved a bad set-back to the increase in the area of departmental paddies. On wide areas in Burdwan, Bankura, Birbhum and Hooghly no crop was obtained and a nucleus of departmental types in paddy seed farms was entirely lost. In these areas seed farms will have to be restocked and a start made again from the beginning. Practically all the farms suffered from drought during the *aman* season, and the Burdwan, Dinajpur and Rangpur farms had floods as well which destroyed the whole of the *aman* paddy crop. On the other hand sugarcane was most successful, C. O. 243 and C. O. 213 giving a yield of 129 maunds and 111 maunds, respectively, of gur per acre in the field.

Artificial farm yard manure was manufactured on all farms as a matter of routine for application to the land and for demonstration to cultivators, the total quantity manufactured being 32,470 maunds.

Agricultural education.—The scheme for the establishment of an Agricultural Institute at Dacca did not materialise owing to lack of funds, but it is noteworthy that the nucleus of a higher Agricultural Institute was established at Rajshahi with the legacy of the late Kumar Basanta Kumar Roy of Dighapatia. The Institution has been named the "Basanta Kumar Agricultural Institute," Rajshahi, of which the course of study will include theoretical and practical training in dairy farming, comprising preparation of dairy products, horticulture, poultry, cigar-making and agricultural farming and will cover a period of four years for Matriculates and those who have not read up to the end of the I. Sc. course, and two years for those who have read up to the end of the I. Sc. course or passed the I. Sc. examination. The scheme will come into operation before long.

There has been an increased demand for admission into the Secondary Agricultural School at Dacca due mainly to the provision of stipends by the district boards for students coming from their respective districts, 14 stipends having been allotted during the year. Accommodation for this increased number is also available owing to the suspension of the scheme for training of teachers at the school which now provides facilities for training of 3 teachers only to replace casualties among trained teachers. The number of schools conducting agricultural classes under the scheme for instruction in agriculture in High English and Middle English Schools during the year was 51, of which 2 were new additions, namely, the Ramkrishna Mission Middle English School, Sarisa, in 24-Parganas, and the St. Gabriel Middle English School, Canning. As many as 3,043 students received instruction in the subject—both theoretical and practical. The working of the schools is regularly inspected and steps are taken to eliminate those which work badly.

The subject of the teaching of nature study in primary schools met with encouraging results during the year, the number of primary schools

ith provision for such training having considerably increased in many
the districts. The district board of Mymensingh contributed
s. 100 as a reward to the teachers in 20 primary schools in the district
hich showed the best results.

Acknowledgment.—Government in the Ministry of Agriculture have
uch pleasure in recording their appreciation of the valuable services
ndered by Mr. K. McLean in the administration of the Department.
hey have also noted the names of other departmental officers—superior
id subordinate—commended in the report. Thanks of Government are

NOTIFICATIONS.

No. 1079P.D.—16th September 1936.—The following draft of a notification, which it is proposed to issue under sub-section (*a*) of section 12 of the Port Haj Committees Act, 1932 (XX of 1932), is published as required by sub-section (*1*) of section 23 of the said Act for information of all persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration by the Governor in Council on or after the 13th October 1936.

Any objection or suggestion which may be sent to the Chief Secretary to the Government of Bengal by any person with respect to the said draft on or before the aforesaid date will be considered by the Governor in Council:—

Draft Notification.

In exercise of the powers conferred by sub-section (*a*) of section 12 of the Port Haj Committees Act, 1932 (XX of 1932), the Governor in Council is pleased to make the following rule in supersession of rule 20 of the Calcutta Port Haj Committee Rules, 1933, published with notification No. 13604P., dated the 2nd December 1933, and as subsequently amended by notification No. 1006P., dated the 23rd January 1934:—

Rule.

20. The term of office of the Chairman shall be for a period of one year from the date of approval of his election by the Local Government under sub-section (*3*) of section 11 of the Act or from the date of his appointment under sub-section (*2*) of that section, as the case may be, but he shall be eligible for re-election or re-appointment:

Provided that the term of office of the Chairman shall continue until a Chairman is elected and his election has been approved by the Local Government under sub-section (*3*) of section 11 of the Act or a Chairman is appointed under sub-section (*2*) of that section.

No. 14622P.—17th September 1936.—Whereas it appeared to the District Magistrate of Chittagong that the letting off of bombs or fireworks in Chittagong was likely to cause obstruction to the authorities responsible for the preservation of the public tranquillity and whereas he issued an order, dated the 28th September 1932, under section 144 of the Code of Criminal Procedure, 1898, directing all persons to abstain from letting off any bombs or fireworks within the police-stations of Kotwali, Double Mooring and Panchalaish;

And whereas it appears to the local Government that the conditions in Chittagong which led to the issue by the District Magistrate of the aforesaid order still continue and that the letting off of bombs or fireworks is likely to cause a danger to human life or safety:

Now, therefore, in exercise of the power conferred by section 144(*6*) of the Code of Criminal Procedure, it is hereby directed that the said order shall remain in force for a further period of two months, with effect from the 27th September 1936.

Birbhum.—No. 1149 P. D.—19th September 1936.—In exercise of the power conferred by section 24 of the Bengal Suppression of Terrorist Outrages Act, 1932 (Ben. Act XII of 1932), the Governor in Council is pleased to invest Babu Jyotish Chandra Chatarji, Sub-divisional Magistrate, Birbhum, with the powers of a Special Magistrate under the said Act.

24-Parganas.—No. 3741P.H.—22nd September 1936.—In pursuance of rule 8 of the rules for the preparation, publication and execution of projects for water-supply, sewerage or drainage by municipal authorities, it is hereby notified for general information that the scheme for the supply of water to the Halisahar Municipality, has been approved by the Government of Bengal (Ministry of Public Health), and that the particulars of the said scheme are as follows:—

1. (*a*) The water-supply will be derived from tube-wells belonging to the Hukumchand Jute Mills who will pump and deliver a supply not less than 75,000 gallons and not more than 100,000 gallons per day into the municipal mains. The municipality will lay their own distribution pipes varying in sizes from 8″ to 2″ diameters along different roads in the town. The supply will be given through 92 standposts and a limited number of house connections. The principal water main will be along the Ghosepara Road with 19 branches leading to all important centres of the inhabited area of the town. The total length of pipe lines will be about 55,755 feet.

(*b*) The estimated cost of the scheme is Rs. 67,000 to be financed as follows:—

(*1*) Municipal contribution—Rs. 13,000.

(*2*) Fees for house connections—Rs. 8,000.

(*3*) Loan from Government—Rs. 46,000.

(*c*) and (*d*) The cost of maintenance, which is estimated at Rs. 8,210 annually, will be met from the water-rate fund of the municipality.

(*e*) A loan of Rs. 46,000 from Government is required for the scheme by the municipality, to be repaid in twenty years in equal yearly instalments of Rs. 3,310-4-2 each.

2. The scheme will be taken into consideration on or after the 1st November 1936, and any objection or suggestion with regard thereto, which may be received by the undersigned before that date, will be duly considered.

NOTIFICATIONS.

No. 6407F.—1st August 1936.—In exercise of the powers conferred by rule 44 of the Civil Services (Classification, Control and Appeal) Rules, the Governor in Council and acting with his Ministers hereby makes the following rules to regulate the gratuities and pensions admissible to, and the retirement of, Government servants in Inferior Service under his administrative control, in supersession of all previous rules and orders on the subject which are inconsistent with the said rules:—

Rules.

1. *Short title and commencement.*—(*1*) These rules may be called the Bengal (Inferior) Services (Gratuity, Pension and Retirement) Rules, 1936.

(*2*) They shall come into force on the 1st April 1936.

2. *Application of rules.*—These rules shall apply to all Government servants in Inferior Service under the administrative control of the Government of Bengal who are or were paid from the provincial revenues of Bengal.

3. *Saving of other rules, etc.*—Nothing in these rules shall be deemed to derogate from any rules or orders in force not inconsistent with these rules.

4. *Classes of pensions and gratuities.*—Pensions and gratuities shall be of the following classes, namely:—

(*i*) Compensation pension and compensation gratuity, granted on discharge from Government service on account of reduction of establishment;

(*ii*) Invalid pension and invalid gratuity, granted on retirement from Government service on account of permanent incapacity resulting from bodily or mental infirmity;

(*iii*) Superannuation pension and superannuation gratuity, granted on attaining the age prescribed in rule 9; and

(*iv*) Retiring pension, granted on retirement from Government service after a qualifying service of 40 years.

5. *Grant of gratuity.*—Compensation gratuity, invalid gratuity or superannuation gratuity, of an amount not exceeding one-half month's pay for every completed year of qualifying service may be granted if the qualifying service on discharge or retirement is less than 25 years.

6. *Grant of pension.*—(*1*) Save as provided in sub-rule (*2*),—

(*a*) Compensation pension, invalid pension or superannuation pension, of the amount set out in Schedule I, may be granted if the qualifying service on discharge or retirement is not less than 25 years;

(*b*) Retiring pension, of the amount set out in Schedule I, may be granted if the qualifying service on retirement is not less than 40 years.

(*2*) In the case of the Government servants specified in Schedule II—

(*a*) Compensation pension, invalid pension or superannuation pension of the appropriate amount set out in Schedule II, may be granted if the qualifying service on discharge or retirement is not less than 30 years.

(*b*) Retiring pension, of the appropriate amount set out in Schedule II, may be granted if the qualifying service on retirement is not less than 40 years.

7. *Pay defined.*—For the purposes of these rules, gratuity and pension shall be calculated on the basis of the monthly substantive pay which the Government servant concerned drew or would have drawn at the time of his discharge or retirement in the permanent post held by him substantively:

Provided that if the pay of a Government servant has been reduced during the last three years of his service otherwise than as a penalty, his gratuity or pension under these rules may, at the discretion of the authority which has power to sanction it, be calculated upon the average of his pay during the last three years of his service.

8. *Qualifying service limited.*—For the purposes of these rules, qualifying service shall not begin until the Government servant concerned has attained the age of 16 years.

9. *Age of retirement.*—A Government servant shall retire when he has reached the age of 60 years:

Provided that a Government servant may be retained in service until he has attained the age of 65 years:

Provided further that such continuation in service after attaining the age of 60 years shall be contingent upon the mental and physical fitness of the Government servant concerned.

NOTIFICATION.

No. 8064F. — 18th September 1936. — In exercise of the power conferred by rules 41, 42 and 44 of the Civil Services (Classification, Control and Appeal) Rules, the Governor in Council and acting with his Ministers is pleased to make the following amendment to the Bengal Services (Pay of Temporary Posts) Rules, 1935, namely:—

Amendment.

For rule 3 of the said Rules, the following shall be substituted:—

"With effect from the 1st April 1935, any Government servant holding a temporary post which he held on the 21st July 1931, and has, save for periods of leave or for periods of officiating or temporary service in another post on the same rate of pay or in a still higher post, held continuously since then may draw, so long as he holds that post, the pay which he would have drawn had the 15 per cent. cut orders never been issued: that is to say

(*i*) if his pay on the 21st July 1931 was a fixed pay, he may continue to draw that fixed pay;

(*ii*) if his pay on the 21st July 1931 was in a time-scale, he may, with effect from the 1st April 1935, draw pay at the rate which would have been admissible, and draw increments thereafter, on the dates on which he would have drawn them, had the 15 per cent. cut orders never been issued."

And the said rules shall have effect and shall be deemed always to have had effect as if they had been made as so amended.

ADDENDA AND CORRIGENDA.

No. 8071F.—19th September 1936.—The following corrections which have been authorised are published for general information:—

Fundamental and Subsidiary Rules, 1st Edition (Reprint), 1929.

Page 17—F. R. 17.—Insert the following as first sub-paragraph of paragraph 3 under Secretary of State's ruling and renumber the existing paragraph 3 as inserted by correction slip No. 293, dated the 2nd November 1932, as second sub-paragraph:—

The term "without avoidable delay" occurring in paragraph (*1*), should be interpreted as referring only to delay on the part of the officer in reporting himself for duty (either at the Local Government's headquarters or at the actual place of duty, as the case may be) and not to delay in actually taking up his duties thereafter.

Note.—The extent of the interval permissiblo between the receipt of posting orders at the local Government's headquarters and the assumption of duties is prescribed in Subsidiary Rule 4 (*6*).

Bengal Financial Rules, 1st Edition (Reprint), 1930.

Page 11—Rule 2.—Insert the following after the words "Superintending Engineer" in lines 4 and 5 of this rule:—

Divisional Accountants should not be authorised to issue final receipts in Bengal Financial Rules form No. 1 over their own signature save with the previous permission of the Accountant-General, Bengal.

Page 11—Rule 2.—Insert the following as a fresh sub-paragraph to rule 2 (*7*):—

Divisional Accountants should not be required to receive or pay out cash save with the previous permission of the Accountant-General, Bengal, in the cases and on the conditions mentioned in paragraph 101 (*c*), Public Works Account Code.

Page 11—Rule 3.—Insert the following as an exception below this rule:—

"*Exception.*—In the Publication Branch of the Bengal Government Press, receipts of postage or revenue stamps for publications and advertisements are permitted."

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Agriculture.

CALCUTTA, THE 14TH SEPTEMBER 1936.

RESOLUTION—No. 480 AGRI.

Minister-in-charge: The Hon'ble Nawab Sir Mohiuddin Faroqui, Kt., of Ratanpur.

The Bengal Agricultural Research Committee was constituted under resolution No. 4350 Agri., dated the 22nd August 1933. The period of office of the non-official members of the committee having expired, the Government of Bengal (Ministry of Agriculture) are pleased to reconstitute the committee with the following members :—

(1) The Hon'ble Minister in charge of the Agricultural Department, President.

(2) The Secretary to the Government of Bengal in the Agriculture and Industries Department.

(3) The Director of Agriculture, Bengal.

(4) The Director, Civil Veterinary Department, and Veterinary Adviser to the Government of Bengal.

(5) The Principal, Bengal Veterinary College.

(6) One scientific officer of the Agricultural Department to be nominated by Director of Agriculture.

(7) Professor J. C. Ghosh, D.SC., representative of pure science from the Dacca University.

(8) Professor Jnanendra Nath Mukherjee, D.SC., representative of pure science from the Calcutta University.

9. Professor S. P. Agharkar, M.A., PH.D., F.L.S.

(10) Mr. I. S. K. Ghuznavi, B.S., Mymensingh.

The Director of Agriculture will act as Secretary to the committee.

Government reserve the power to add to the number of members. The committee shall have powers to co-opt members possessing expert knowledge and, if necessary, to appoint sub-committees to deal with special problems.

The non-official members will hold office for a period of three years or until further orders.

2. The committee will be entirely distinct from the Provincial Board of Agriculture and its main function will be to co-operate with the Imperial Council of Agricultural Research in matters connected with the advancement of agricultural and veterinary research, as well as to assist in maintaining touch between that body and agricultural activities in this Presidency. Its primary duty will be to examine all programmes of development and research which Government may propose to refer to the Imperial Council of Agricultural Research and report on any application from any association or person within the province for a grant from the Council. It will also advise the Local Government on any scheme or project which may be referred to it for opinion.

3. The Hon'ble Minister takes this opportunity of expressing his thanks to the members of the late committee for the assistance and advice they have rendered to the Agriculture Department.

Order—Ordered that a copy of the resolution be forwarded to the Director of Agriculture, the Veterinary Adviser, the Principal, Bengal Veterinary College, and the Vice-Chancellors of the Dacca and the Calcutta Universities and to the non-official members of the committee, for information.

Ordered also that the resolution be published in the *Calcutta Gazette* for general information.

By order of the Government of Bengal

(Ministry of Agriculture),

H. S. E. STEVENS,

Secretary to the Government of Bengal.

University of Dacca.

Ramna, Dacca, the 10th September 1936.

NOTIFICATION—No. 2073/Ex.

The next B.L. Examination will commence on the 25th January 1937, and will be held on the dates and time notified in the time-table.

2. Applications for admission to the examination shall be made on the printed entry forms which will be obtainable at the office of the Provost of the hall to which the student belongs. The entry form, after it has been duly filled in and signed by the candidates and countersigned by the Dean of the Faculty of Law, shall be presented by the candidate to the Provost of his hall not later than Thursday, the 26th November 1936.

3. Candidates shall submit their University diplomas or the Preliminary B.L. Certificates, as the case may be, along with their entry forms to the Provost for verification of the correctness of their names in the entry forms. Candidates must take back their diplomas or certificates within a fortnight after the examination is over, failing which the Provosts' offices will not be responsible for their safe-keeping. The entry forms will be checked by the Provosts in respect of all the entries made by the candidates in the entry forms. The date of first admission of candidates into the University will be checked by the Provosts with reference to the applications for admission of the candidates concerned. In the case of candidates, who have been granted special permission to appear at the examination, the authority granting them such permission should be quoted in the entry forms of the candidates and duly attested by the Provost. The checking of entry forms by the Provosts will be regarded as final. The entry forms after they have been checked by the Provosts will be forwarded by them to the Accounts office of the University not later than Friday, the 3rd December 1936.

4. Candidates who are required to pay half the usual examination fees under section 32 of Chapter XXXVII of the Ordinances and Regulations, must obtain at the time of depositing fees, a certificate on the examination entry form, from the Examination Section of the University, to the effect that they submitted their examination fees but did not appear at the examination.

5. Candidates shall deposit their proper examination fees and all other dues up to the 5th instalment, 1936, into the Accounts office of the University on the dates noted below for certification that all University dues including the seat-rent, tuition fees, etc., have been paid in full.

Dates for the payment of fees.

Time—11-30 a.m. to 2 p.m.

Dacca Hall—7th and 8th December 1936.

Jagannath Hall—7th and 8th December 1936.

Salimullah Muslim Hall—7th and 8th December 1936.

6. The fees for the different examinations are noted below:—

(*i*) Preliminary B.L. Examination—Rs. 45.

(*ii*) Final B.L. Examination—Rs. 45.

(*iii*) B.L. Examination for candidates appearing in eleven papers—Rs. 90.

The fee for Supplementary Examination is half the ordinary examination fee.

7. The Accounts office will send all the entry forms of the candidates, who have paid their examination fees and other dues, if any, to the Examination Section by Monday, the 21st December 1936, at the latest.

8. Examination fees and other dues must be paid on the due dates and no extension of time will be allowed under any circumstances whatsoever. Candidates are required to pay the examination fees and other dues into the Accounts office of the University. If the fees are sent by postal money order, full details of candidates must be given, and the correct amount sent; otherwise, the money order will be refused. Fees sent in any other way, e.g., by registered or insured post, will not be accepted.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

No. 6 T.B.—29th August 1936.—In accordance with the Government (Education Department) notification No. 1665 Edn., dated the 16th November 1920, the following list of text-books, approved by this department for use in all classes of Primary Schools in the Presidency of Bengal, is published for general information. These books are approved for a period of four years from January 1937.

The lists of text-books published with this office notifications Nos. 2T.B., dated the 16th June 1930, and 5T.B., dated the 10th November 1930, are hereby cancelled.

The syllabuses for Infant Class, Class I and Class II in the Revised Curriculum for Primary Schools (and Maktabs), now in force in both parts of this Presidency, shall be adopted, respectively, in the Infant Class, Class I and Class II of Middle Schools and the corresponding Classes of High Schools for both boys and girls. Text-books approved by this department for Infant Class, Class I and Class II of Primary Schools (and Maktabs) will be applicable to the corresponding Classes of Secondary Schools.

District Boards and District School Boards are requested to choose books from the following list for use in Primary Schools under their control. In making this choice, it is hoped that care will be taken to ensure that undue patronage of either individual authors or publishing houses is avoided. Inspecting Officers should not themselves recommend books directly to Primary Schools.

J. M. BOTTOMLEY,
Director of Public Instruction, Bengal.

INTRODUCTORY NOTES.

(*i*) The compulsory subjects in all Primary Schools are the following:—

(*a*) Reading.

(*b*) Writing.

(*c*) Arithmetic.

(*d*) Geography.

(*e*) History.

(*f*) Hygiene (for Boys) or Hygiene and Domestic Economy (for Girls).

(*g*) Observation Lessons (for Boys).

(*h*) Physical Training (for Boys) or Needlework (for Girls).

The Primary (Maktab) Final Examination will be held at the end of Class IV and the subjects of examination will be the first six subjects. The preliminary Primary (Maktab) Scholarship (Lower Primary) Examination will be held at the end of Class II, and the subjects of examination will be the first four and the sixth subjects.

In addition, for the Primary (Maktab) Final Examination two of the following optional subjects should be taken:—

(*a*) Drawing,
(*b*) Manual Work,
(*c*) Science or Nature Study based on School Gardening,
(*d*) English, and
(*e*) Zamindary and Mahajani Accounts,

and for the Preliminary Primary (Maktab) Scholarship Examination any one of the following optional subjects should be taken:—

(*a*) Drawing.
(*b*) Manual Work.

(*ii*) A boy from a Primary School intending to enter a High or Middle English School should leave at the end of Class II. A boy may also enter a High or Middle English School at the end of Class IV, provided he has taken English as an optional subject in Classes III and IV.

(*iii*) Prior to the publication of a new edition, all additions, alterations or omissions in the text of a sanctioned book must receive the sanction of the Text Book Committee. Any deviation from these instructions will render a book liable to immediate removal from the approved list of text-books.

(*iv*) No name except that of the author and publisher should be allowed on cover or title page (*i.e.*, no name of editor, reviser, or writer of foreword or preface should be allowed).

(*v*) Mat (*i.e.*, dull) and not shining paper should be used.

(*vi*) Misleading statements on the cover or title page should be avoided. It should be clearly mentioned whether the book is approved as a text-book, a supplementary reader or a prize and library book.

(*vii*) Any deterioration in paper, printing, binding or illustrations of an approved book will render it liable to immediate withdrawal from the list.

(*viii*) Price—

(*a*) One anna and six pies for each 32 pages of printed matter *plus* a concession of 40 per cent.

This rate will be applicable to Bengali readers and text-books on History, Science, Hygiene, Arithmetic and Zamindary and Mahajani Accounts.

(*b*) Two annas for each 32 pages of printed matter *plus* a concession of 40 per cent.

This rate will be applicable to English readers and text-books on Geography.

(*c*) One anna and six pies for a Bengali copy book.

(*d*) GEOGRAPHY.

(*Class II.*)

No text-book is required for pupils in this class, and instruction should be oral, and on the following lines:—

The subject should be introduced by conversation about the neighbourhood—its roads, waterways, railways, where these come from, where they go to, and what traffic is seen on them.

The children should be shown how to measure the dimension of the school-room, the house and the grounds, the teacher drawing on the blackboard plans which the children will copy.

The children should be given the idea of direction and the cardinal points of the compass. Ideas of hills, valleys, plains, rivers, lakes, islands, etc., are to be gained from pictures and models to be made in clay or wood.

Children should observe the position of the school village in the thana or the district map and calculate distances; observe the position of the district in the map of the province. Stories should be told about journeys to important places such as Calcutta, Darjeeling, etc.

The following books and maps may be used for the purpose of oral instruction:—

Collecting crop plants growing in the season. Conversation about the food materials obtained from each. The organs of our body and their uses; children measuring and comparing the respective lengths of their arms, legs, fingers and their height. The teacher testing their eyesight, power of hearing.

(*Class II.*)

Observation lessons.—Growth of plants to be observed by growing any kind of pulse and paddy in pots or in small plots. To observe the roots and seed leaves and mark the difference. Experiments to show the effect of light and moisture on growth. Collecting other plants having roots and seed leaves like those grown. Collecting and

observing plants having creeping or climbing stems. Plants growing in water, plants producing no flowers. Observing leaf buds and flower buds and parts of a flower.

(*Class III.*)

Nature study based on school gardening. [*Recommended for rural schools (optional).*]—Laying out a garden, a plot of 4 to 6 square cubits, for each scholar or if the compound is not spacious enough, a common plot for all, for purposes of experiment. Seed testing—sowing 50 or 100 seeds of each of several kinds of plants, paddy, pluses, jute, mustard, according to the time of the year in each plot or separate parts of the common plot. Each scholar to keep a diary in which to note down the date of sowing, the time taken for germination, the percentage of germination, the rate of growth after germination. In each stage of growth the scholars will pull up a specimen and observe the roots, their uses and growth, the stems and leaves and their uses and structure; the flowers—their parts and uses, the methods of fertilization, the fruits and seeds. All these to be noted in the diary. To observe the kinds of soil—clayey, sandy, loamy; the power of each to absorb and retain moisture. Plant food in the soil. The effect of manures, showing the effect of differnt manures as cowdung, oilcake, ashes and nitrate of soda on the growth of plants, of phosphates, of fruits, etc. The plots should be drawn to scale and all results recorded in the note-book.

(*Class IV.*)

Nautre study based on school gardening (*optional*).—Boys may work in pairs, one of Class III and another of Class IV if single plots are available, otherwise all on a common plot, one being set apart for boys of Class III for experiments only and another for those of Class IV. Plans of work to be prepared in September every year; the plots to be sown with patricular seeds should be set out to scale in the note-book; plan should include also indoor work, such as raising early seedlings of onions, cauliflowers, cabbages in plots or boxes. Following operations to be explained:—Digging—its effect, purpose; to sow at depths suitable to various seeds; to prepare trenches—manuring effect and purpose; plant, food, seeding crops to be shown—(1) jute, *aus* paddy, (3) maize, (4) *aman* paddy, (5) pulses, (6) mustard, (7) potato, (8) gram, also vegetables—brinjal, radish, turnip cauliflower, onion, chilli, flowers grown on borders of each plot—arrangements should be made to produce a continuous supply of vegetables throughout the year. Lessons on rotation, on insect pests and insecticides. Records to be kept of the quantity of seed used and of the produce.

N.B.—No text-books are required for the use of pupils in the above classes. The following books may be used by teachers for the purpose of oral instruction:—

(*b*) MANUAL WORKS (OPTIONAL).

(Class I.)

(*a*) Clay modelling—simple household utensils, pottery, etc., modelling in connection with the beginnings of Geography. The children should model from picture or from models made by the teacher.

(*b*) Stick-laying with the use of seeds to shapes shown on a wall chart. The following shapes may be used :—

An umbrella, a house, a fence and gate, a door, a window, a house with fence and gate, a tree (with half-stick), a verandah of a house, a man, a cart, a cow. Build up a hut from several new elements, children working together.

Remarks.—Wall charts and models.

(Class II.)

Tear out of paper, according to picture chart, a wall, a house, a man, a tree, a boat, a large pucca house, a cow, a hen, a vulture, a

horse, a bullock-cart, a bridge, a man with a lathi, a man with a bundle on his head. Multiply them by folding the paper and so build up a street, a railway engine, carriage, etc. Each model may be improved with pencil or colours. Make a book (using a pin for stitching), an envelope. The teacher may teach any paper-folding which he knows.

Remarks.—Wall charts and models.

(Class III.)

Claywork combined with sticks. The models suggested in the first and second years should be made with clay and sticks combined and any other materials available. All materials may be used, e.g., straw for roof, leaves for plants, paper for man's clothes, scissors and knives may be used.

Remarks.—Wall charts and models.

(Class IV.)

1. Construct a cardboard ruler graduated in inches, half the ruler in half-inches, quarter of the ruler in quarter-inches, a sixth in eighths and over in tenths.

2. Construct a cardboard scale showing 1 inch to a foot up to 3 feet. Measure and draw plans of furniture to scale.

3. Draw circles and simple geometrical figures (*e.g.*, triangles, square, oblong) to scale, cut out in cardboard. Save these models for future experiments.

4. Construct a cardboard 45° set square—copy direct from model—make another half-size. Construct a cardboard 30° and 60° set square. Refer to angles 1, 2 and 3 and make them at each corner.

5. Draw and cut out triangles using set-squares.

6. Construct and cut out a protractor.

7. Graduate and cut out a thermometer scale—copy from actual object.

8. Draw and cut out the following flat objects:—A box with sides flattened out, a clock, a house with sides flattened out, a door, a window, a fence (made of pieces of paper cut to scale), a gate, a bridge, with pillars, with arches, a picture frame, etc.

9. Models constructed to a scale but not in flat, an envelope (in paper), a tray, a picture frame, a box, a table, a stool, a house, a house with windows and doors. Add a fence to it. A weather-cock (working model), a kite, a wind-mill, a fan. Embellish and finish all these models in ways which may suggest themselves to an artistic temperament, but on no account must the finishing process be utilised to cover up inaccurate work.

10. Simple models in paper and cardboard illustrating history, literature and descriptive geography.

Remarks.—A text-book or wall charts showing the dimensioned drawing of the models.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

No. 7 T. B.—29th August 1936.—In accordance with the Government (Education Department) notification No. 3730 Edn., dated the 8th December 1924, the following list of text-books approved by this department for use in all Classes of Moslem Primary Schools or Maktabs in the Presidency of Bengal is published for general information. These books are approved for a period of four years from January 1937.

The list of text-books published with this office notification No. 3T.B., dated the 16th June 1930, is hereby cancelled.

The syllabuses for Infant Class, Class I and II in the Revised Curriculum for Primary Schools (and Maktabs), now in force in both parts of this Presidency, shall be adopted, respectively, in the Infant Class, Class I and Class II of Middle Schools and the corresponding Classes of High Schools for both boys and girls. Text-books approved by this department for Infant Class, Class I and II of Primary Schools (and Maktabs) will be applicable to the corresponding Classes of Secondary Schools.

District Boards and District School Boards are requested to choose books from the following list for use in Maktabs under their control. In making this choice, it is hoped that care will be taken to ensure that undue patronage of either individual authors or publishing houses is avoided. Inspecting Officers should not themselves recommend books directly to Primary Schools.

J. M. BOTTOMLEY,
Director of Public Instruction, Bengal.

INTRODUCTORY NOTES.

1. Any vernacular, *e.g.*, Urdu, may be substituted for Bengali where the controlling authorities of the school consider that circumstances justify it.

2. The compulsory subjects in all schools (maktabs) will be the following:—

(*a*) Reading.
(*b*) Writing.
(*c*) Arithmetic.
(*d*) Geography.
(*e*) History.

(*f*) Koran, Ritual* of Islam and Urdu.

(*g*) Observation Lessons for Boys, Needlework or Domestic Economy for Girls.

The Maktab (Primary) Final Examination will be held at the end of Class IV and the subjects of examination will be the first six subjects. The Preliminary Maktab (Primary) Scholarship (L.P.) Examination will be held at the end of Class II and the subjects of examination will be the first four and the sixth.

3. In addition, for the Maktab (Primary) Final Examination two of the following optional subjects should be taken:—

(*a*) Hygiene (for Boys) or Hygiene and Domestic Economy (for Girls),

(*b*) Manual Work,

(*c*) English, and

(*d*) Zamindary and Mahajani Accounts,

and for the preliminary Maktab (Primary) Scholarship Examination only one of the optional subjects, viz., Manual Work, should be taken.

4. The course will be completed in five years and pupils at the completion of the course will take the Maktab (Primary) Final Examination.

5. A boy from a Maktab intending to enter a High or a Middle English School should leave at the end of Class II. A boy may also enter a High or Middle English School at the end of Class IV, provided he has taken English as an optional subject in Classes III and IV.

6. In selecting text-books for Maktabs preference should be given to those by Moslem authors.

*The Ritual should include a general knowledge of moral precepts from the Koran and from the Sayings of the Prophet.

N.B.—(*i*) Prior to the publication of a new edition, all additions, alterations or omissions in the text of a sanctioned book must receive the sanction of the Committee. Any deviation from these instructions will render a book liable to immediate removal from the approved list of text-books.

(*ii*) No name except that of the author and publisher should be allowed on cover or title page (*i.e.*, no name of editor, reviser, or writer of foreword or preface should be allowed).

(*iii*) Mat (*i.e.*, dull) and not shining paper should be used.

(*iv*) Misleading statements on the cover or title page should be avoided. It should be clearly mentioned whether the book is approved as a text-book, a supplementary reader or a prize and library book.

(*v*) Any deterioration in paper, printing, binding or illustrations of an approved book will render it liable to immediate withdrawal from the list.

(*vi*) Prices of text-books for Moslem primary schools are to be calculated at the following rates:—

(*a*) One anna and six pies for each 32 pages of printed matter *plus* a concession of 40 per cent.

This rate will be applicable to Bengali readers and text-books on History, Science, Hygiene, Arithmetic and Zamindary and Mahajani Accounts.

(*b*) Two annas for each 32 pages of printed matter *plus* a concession of 40 per cent.

This rate will be applicable to English readers and text-books on Geography and Urdu.

(*c*) One anna and six pies for a Bengali copy book.

(*d*) Two annas and three pies for an English copy book.

(*d*) GEOGRAPHY.

(*Class II.*)

No text-book is required for pupils in this class, and instruction should be oral, and on the following lines:—

The subject should be introduced by conversation about the neighbourhood—its roads, waterways, railways, where these come from, where they go to, and what traffic is seen on them.

The children should be shown how to measure the dimension of the school room, the house and the grounds, the teacher drawing on the blackboard plans which the children will copy.

The children should be given the idea of direction and the cardinal points of the compass. Ideas of hills, valleys, plains, rivers, lakes,

islands, etc., are to be gained from pictures and models to be made in clay or wood.

Children should observe the position of the school village in the thana or the district map and calculate distances; observe the position of the district in the map of the province. Stories should be told about journeys to important places such as Calcutta, Darjeeling, etc.

The following books and maps may be used for the purpose of oral instruction:—

(*g*) OBSERVATION LESSONS (FOR BOYS).

(Infant Class.)

Observation lessons.—To be begun by conversation lessons on the things in the school such as benches, desks, stools; children measuring the benches, desks, etc., collecting leaves, flowers and fruits from plants and trees growing in the locality and comparing them as to shape, colour, smell, number, etc. Additional observation lesssons should be given in correlation with other class subjects.

(Class I.)

Observation lessons.—Collection and observation of plants such as may be available in the locality, comparing the different parts of each, root, stem, leaves, bark, flowers and fruits with those of another. Collecting crop plants growing in the season. Conversation about the food materials obtained from each. The organs of our body and their uses; children measuring and comparing the respective lengths of their arms, legs, fingers and their height. The teacher testing their eyesight, power of hearing.

(Class II.)

Observation lessons.—Growth of plants to be observed by growing any kind of pulse and paddy in pots or in small plots. To observe the roots and seed leaves and mark the difference. Experiments to show the effect of light and moisture on growth. Collecting other plants having roots and seed leaves like those grown. Collecting and observing plants having creeping or climbing stems. Plants growing in water, plants producing no flowers. Observing leaf buds and flower buds and parts of a flower.

(Class III.)

Nature study based on school gardening. [*Recommended for rural schools (optional).*]—Laying out a garden, a plot of 4 to 6 square cubits, for each scholar, or if the compound is not spacious enough, a common plot for all, for purposes of experiment. Seed testing—sowing 50 or 100 seeds of each of several kinds of plants, paddy, pulses, jute, mustard, according to the time of the year in each plot or separate parts of the common plot. Each scholar to keep a diary in which to note down the date of sowing, the time taken for germination, the percentage of germination, the rate of growth after germination. In each stage of growth the scholars will pull up a specimen and observe the roots, their uses and growth, the stems and leaves and their uses and structure; the flowers, their parts and uses, the methods of fertilization, the fruits and seeds. All these to be noted in the diary. To observe the kinds of soil—clayey, sandy, loamy; the power of each to absorb and retain moisture. Plant food in the soil. The effect of manures, showing the effect of different manures as cowdung, oilcake, ashes and nitrate of soda on the growth of plants, of phosphates of fruits, etc. The plots should be drawn to scale and all results recorded in the note book.

(Class IV.)

Nature study based on school gardening (optional).—Boys may work in pairs, one of Class III and another of Class IV if single plots are available, otherwise all on a common plot, one being set apart for boys of Class III for experiments only and another for those of class IV.

Plans of work to be prepared in September every year; the plots to be sown with particular seeds should be set out to scale in the note-book; plans should include also indoor work, such as raising early seedlings of onions, cauliflowers, cabbages in plots or boxes. Following operations to be explained—digging: its effect, purpose; to sow at depths suitable to various seeds; to prepare trenches —manuring effect and purpose; plant, food, seedling, crops to be shown—(1) jute, (2) *aus* paddy, (3) maize, (4) *aman* paddy, (5) pulses, (6) mustard, (7) potato, (8) gram, also vegetables—brinjal, radish, turnip, cauliflower, onion, chilli, flowers grown on borders of each plot—arrangements should be made to produce a continuous supply of vegetables throughout the year. Lessons on rotation, on insect pests and insecticides. Records to be kept of the quantity of seed used and of the produce.

SYLLABUS IN NEEDLEWORK FOR GIRLS' SCHOOLS (OPTIONAL).

(Infant Class.)

Needle drill and hemming. Top sewing and running.

(Class I.)

Backstitching, filling and patch work, making pillow-cases and bags.

(Class II.)

Cross-stitching, making a chemise (gathers can be but need not be used for the band.) Plain knitting with two needles.

(Class III.)

Cutting out and making a plain petticoat. Making button-holes. Marking on cloth in vernacular characters. Knitting plain and purl with two needles.

(Class IV.)

Cutting out and making a jacket, button-holes and gathering pieces of cloth and putting it into a band. Darning and herring-boning-knitting of plain socks for babies.

Remarks.—No text-books to be used.

(*b*) MANUAL WORK (OPTIONAL).

(Class I.)

(*a*) Clay modelling—simple household utensils, pottery, etc., modelling in connection with the beginnings of Geography. The children should model from pictures or from models made by the teacher.

(*b*) Stick-laying with the use of seeds to shapes shown on a wall chart. The following shapes may be used:—

An umbrella, a house, a fence and a gate, a door, a window, a house with fence and gate, a tree (with half-stick), a verandah of a house, a man, a cart, a cow. Build up a hut from several new elements, children working together.

Remarks.—Wall charts and models.

(Class II.)

Tear out of paper, according to picture chart, a wall, a house, a man, a tree, a boat, a large pucca house, a cow, a hen, a vulture, a horse, a bullock-cart, a bridge, a man with a lathi, a man with a bundle on

his head. Multiply them by folding the paper and so build up a street, a railway engine, carriage, etc. Each model may be improved with pencil or colours. Make a book (using a pin for stitching), an envelope. The teacher may teach any paper-folding which he knows.

Remarks.—Wall charts and models.

(*Class III.*)

Clay-work combined with sticks.—The models suggested in the first and second years should be made with clay and sticks combined and any other materials available. All materials may be used, *e.g.*, straw for roof, leaves for plants, paper for man's clothes, scissors and knives may be used.

Remarks.—Wall charts and models.

(*Class IV.*)

1. Construct a cardboard ruler graduated in inches, half the ruler in half-inches, quarter of the ruler in quarter-inches, a sixth in eights and over in tenths.

2. Construct a cardboard scale showing 1 inch to a foot up to 3 feet. Measure and draw plans of furniture to scale.

3. Draw circles and simples geometrical figures (*e.g.*, triangles, square, oblong) to scale, cut out in cardboard. Save these models for future experiments.

4. Construct a cardboard 45° set square—copy direct from model—make another half-size. Construct a cardboard 30° and 60° set square. Refer to angles 1, 2, and 3 make them at each corner.

5. Draw and cut out triangles using set-squares.

6. Construct and cut out a protractor.

7. Graduate and cut out a thermometer scale—copy from actual

8. Draw and cut out the following flat objects:—a box with sides flattened out, a clock, a house with sides flattened out, a door, a window, a fence (made of pieces of paper cut to scale), a gate, a bridge with pillars, with arches, a picture frame, etc.

9. Models constructed to a scale but not in flat, an envelope (in paper), a tray, a picture frame, a box, a table, a stool, a house, a house with windows and doors. Add a fence to it. A weather-cock (working model), a kite, a windmill, a fan. Embellish and finish all these models in ways which may suggest themselves to an artistic temperament, but on no account must the finishing process be utilised to cover up inaccurate work.

10. Simple models in paper and cardboard illustrating history, literature and descriptive geography.

Remarks.—A text-book or wall charts showing the dimensioned drawings of the models.

Wall chart for Manual Work, Parts I-III. (S. B. Chatterjee & Sons, Calcutta.) Recommended for use as models in classes by teachers.

G. W. GLASS,

Dy. Accountant-General, Bengal.

Calcutta University.

Senate House, the 18th September 1936.

CIRCULAR No. S/294.

The Registrar of the Calcutta University has issued the following for general information:—

The Vice-Chancellor and Syndicate have withdrawn the privilege of provisional recognition enjoyed by the Raniganj Marwari Sanatan Vidyalaya in the district of Burdwan. They have debarred the Head Master Babu Prafullakumar Sen, B.A., from serving in any recognised High English School as Head Master or Assistant Head Master and the Assistant Head Master Babu Ramsidh Singh from employment in any recognised school under this University. They have further ordered that the students of Class X of the above school should be granted immediate transfer certificates and that the schools in which they will seek admission should scrutinise their cases strictly and satisfy themselves about their *bonafides* before admitting them into their respective schools.

J. CHAKRAVORTI, *Registrar.*

Calcutta University.

Senate House, the 31st July 1936.

NOTIFICATION No. S/292/O.U.

In modification of previous orders on the subject it is hereby notified for general information that students migrating from other Universities or Boards of Secondary Education other than the Dacca Board for purposes of their admission to the Matriculation Examination of this University as regular students in 1939 and subsequent years will ordinarily be required to prosecute a regular course of study in a recognised school or schools for a period of at least two school years previous to the examination at which they intend to appear. They will therefore have to join Class IX of a High School recognised by this University within the month of January and to conform to the usual rules of migration.

Exception may, however, be made by the Syndicate in regard to Bengali and Assamese students residing outside Bengal and Assam who are desirous of taking advantage of the facilities available here. They shall not be admitted into Class X after January without the special permission of the Syndicate, which must in each case be previously obtained. But, as the school session in Assam begins in March, students who desire admission into Class X of a recognised High School in Assam shall not be admitted after March without the special permission of the Syndicate. Exception may also be made in the case of students if their migration to this University is caused by the bonafide transfer of their guardians.

All special cases referred to above will also have to be submitted to the University in the prescribed form together with the requisite fees and documents.

Suri, the 2nd September 1936. [ILLEGIBLE], *for* Collector.

Advertisement of sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the B. A. K. Section of the East Indian Railway, in the district of Murshidabad, will be put up to sale at 12 o'clock noon on the 10th November 1936 corresponding to 24th Kartik, 1343 B.S. (Fasli), at the Court of the Subdivisional Officer, Jangipur, district Murshidabad.

The purchasers of the several plots of lands will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase money does not exceed Rs. 100 the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold subject to an annual assessment of Rs. 34 which will be subject to revision at the next general settlement of the temporarily-settled estates of the district to the highest bidders.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and a regular conveyance will then be granted to the purchaser.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 31st August, 1936:—

L. A. BILL No. 32 OF 1936.

A Bill further to amend the General Clauses Act, 1897, for a certain purpose.

WHEREAS it is expedient further to amend the General Clauses Act, 1897, for the purpose hereinafter appearing; X of 1897.
It is hereby enacted as follows:—

Short title.

1. This Act may be called the General Clauses (Amendment) Act, 1936.

Insertion of new section 6A in Act X of 1897.

2. After section 6 of the General Clauses Act, 1897, X of 1897.
the following section shall be inserted, namely:—

Repeal of Act making textual amendment in Act or Regulation.

"6A. Where any Act of the Governor General in Council or Regulation made after the commencement of this Act repeals any enactment by which the text of any Act of the Governor General in Council or Regulation was amended by the express omission, insertion or substitution of any matter, then, unless a different intention appears, the repeal shall not affect the continuance of any such amendment made by the enactment so repealed and in operation at the time of such repeal."

STATEMENT OF OBJECTS AND REASONS.

Doubt has sometimes been entertained in the past as to the effect of the repeal of an amending Act which has made textual alterations in a previous Act. The view which the Government of India favours is that an amending Act of this nature is spent once it has secured the inclusion in the text of the parent Act of the changes it was intended to bring about, and that the repeal of the amending Act thereafter does not affect the continuance of the amendments made by it. It has not, however, hitherto been the practice to repeal such Acts after their work is accomplished and the Statute-book is encumbered with much matter which could profitably be removed, but which it was undesirable to remove as long as any doubt concerning the effect of such removal could be entertained. The present amendment of the General Clauses Act, 1897, is aimed at establishing beyond doubt the view set forth above, and enabling a large number of Acts which were confined to making textual amendments in previous Acts to be repealed.

Resolution on the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, Bengal, for the year 1935.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

Public Health.

CALCUTTA, THE 18TH SEPTEMBER 1936.

RESOLUTION—No. 3647P.H.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

Read the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, Bengal, for the year 1935.

As in the previous year, the municipalities continued their policy of financing their schemes by means of loans and contributions raised locally and considerable progress was made during the year in the negotiation of new water-supply and drainage schemes.

Sketch projects for schemes estimated to cost Rs. 28,33,230, detailed projects for Rs. 7,93,765 and detailed estimates and plans for miscellaneous works amounting to Rs. 1,65,867 were prepared during the year.

The stoppage of Government grants towards the execution of water-supply, drainage and other sanitary engineering schemes which was necessitated by the adverse financial position was not, however, without its effect on the number of such schemes undertaken during the year.

The capital expenditure on waterworks was Rs. 2,13,789 in 1935 and on sewerage works Rs. 1,17,273 against Rs. 2,72,893 and Rs. 2,26,339 respectively in 1934. This brings the total amount of capital expenditure till the end of the year up to Rs. 1,67,21,186 on waterworks and Rs. 88,39,149 on sewerage works.

2. The department continued to render valuable assistance to the municipalities in the matter of inspection, advice and supervision.

3. The metering of house connections which was enforced in the two municipal towns of Comilla and North Chandpur strikingly demonstrated the need for continued vigilance on the part of the municipalities for the prevention of waste in the supply of water to the householders. Although the new Bengal Municipal Act gives power to the municipalities to enforce metering at the cost of the householders even in the case of old house connections, there is a general reluctance to enforce metering as a means of checking waste of water. Even where connections are metered excess water charges are not promptly realized, with the result that there is often considerable waste of public funds. The Chief Engineer reports, however, that the "decentralised storage" system of distribution, to which reference was made in last year's resolution, has proved a success in the municipalities of Asansol, Jalpaiguri and English Bazar where it was introduced as a method of checking waste of water, and it is proposed to introduce this system of distribution in all new schemes of water-supply. The Dacca Municipality has decided to reorganise a part of its supply area on the decentralised storage system, and the sketch project of water-supply for the new Garden Reach Municipality has been designed on this system.

4. The Sanitary Board met seven times in the year. The Board examined the various schemes before their submission to Government, and generally reviewed the reports of inspection of the departmental officers, suggesting necessary action. Their advice was of particular value in regard to measures for the control of malaria and other mosquito-borne diseases.

5. The Board formed a tuberculosis sub-committee with the Surgeon-General as Chairman, the Director of Public Health as Secretary and Dr. (Mrs.) Mary H. Y. Remfry, as member.

6. The Government of Bengal desire to convey their thanks to the members of the Board for the valuable advice given by them during the year of review.

They also desire to express their appreciation of the services rendered during the year by the officers of the department, and of the ability with which Mr. F. C. Griffin carried out his duties as Chief Engineer.
